- plan to update ObsCore

Data Model WG - Roadmap

Data Model WG

- **ObsCore 1.2**
  - Engage discussion on v1.2 proposed evolutions (see github issues)
  - Propose a structure for the document
  - Produce a working draft for the next Interop
  - Ensure that extensions are integrated
- **VO-DML 1.1**
  - Prioritize updates required for CAOM/ObsCore work
  - Move document from ivoa repository to ivoa-std
  - Produce a working draft for WG review
- **ObsCore extensions WD 1.0**
  - Prepare DM working drafts based on endorsed notes
- **CAOM 2.5** Integration
  - Discuss possible deprecation of unused fields
  - Submit working draft and implementations for WG review
- **Provenance**
  - Increasing interest and work in expressing provenance in data products (Step Prov, DataOrigin, link with CAOM)
  - Produce a Note
- **Monitor**:
  - **SLAP:** Stay in the loop of DM portion of this standard update (DAL led)
  - **VOEvent next:** General VOEvent activities
  - **Spectrum**: multi-spectrum support
