

ARTIFICIAL
INTELLIGENCE

The **AI COMPANY**
“We Build **KNOWLEDGE**”

 BUILT IN **ITALY**, PLAYED **GLOBALLY** 

CYBER
SECURITY

SAFEPEOPLE Software 1/3

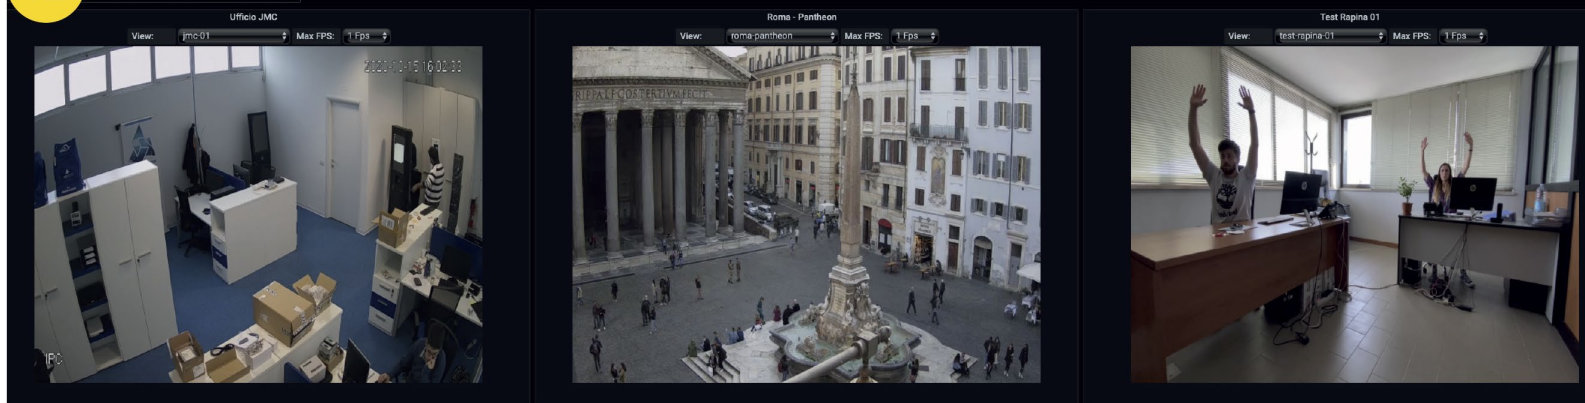

SAFEPEOPLE Software 2/3

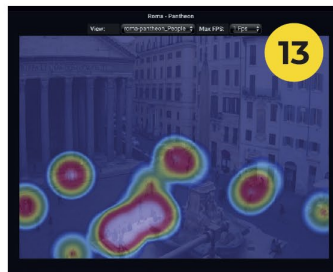

SAFEPEOPLE Software 3/3

On designated cameras, the Skeletal pose recognition feature is available in the combobox over the camera

12

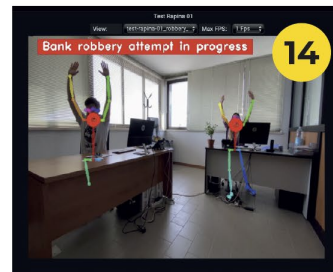

Heatmap

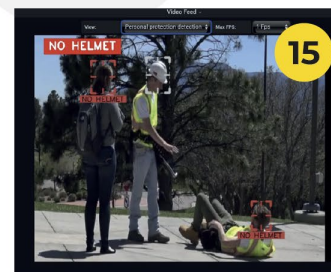

On designated cameras, the people distancing heatmap function is available in the combobox over the camera um is simply dummy text of the printing

Rubber Attempt

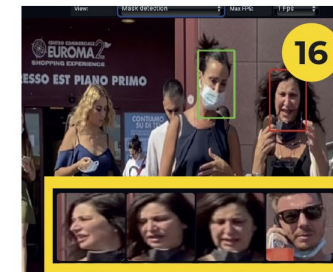

On designated cameras, the "Robbery attempt" function is available in the combobox over the camera

Personal Protection

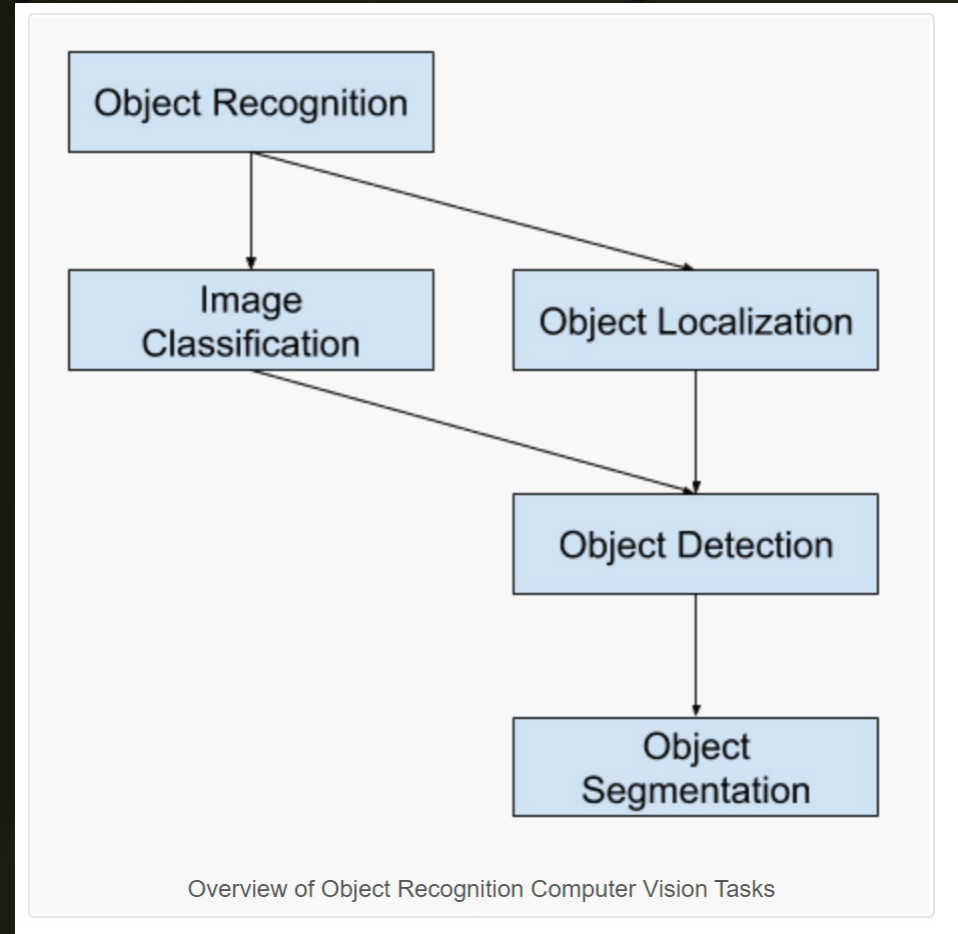

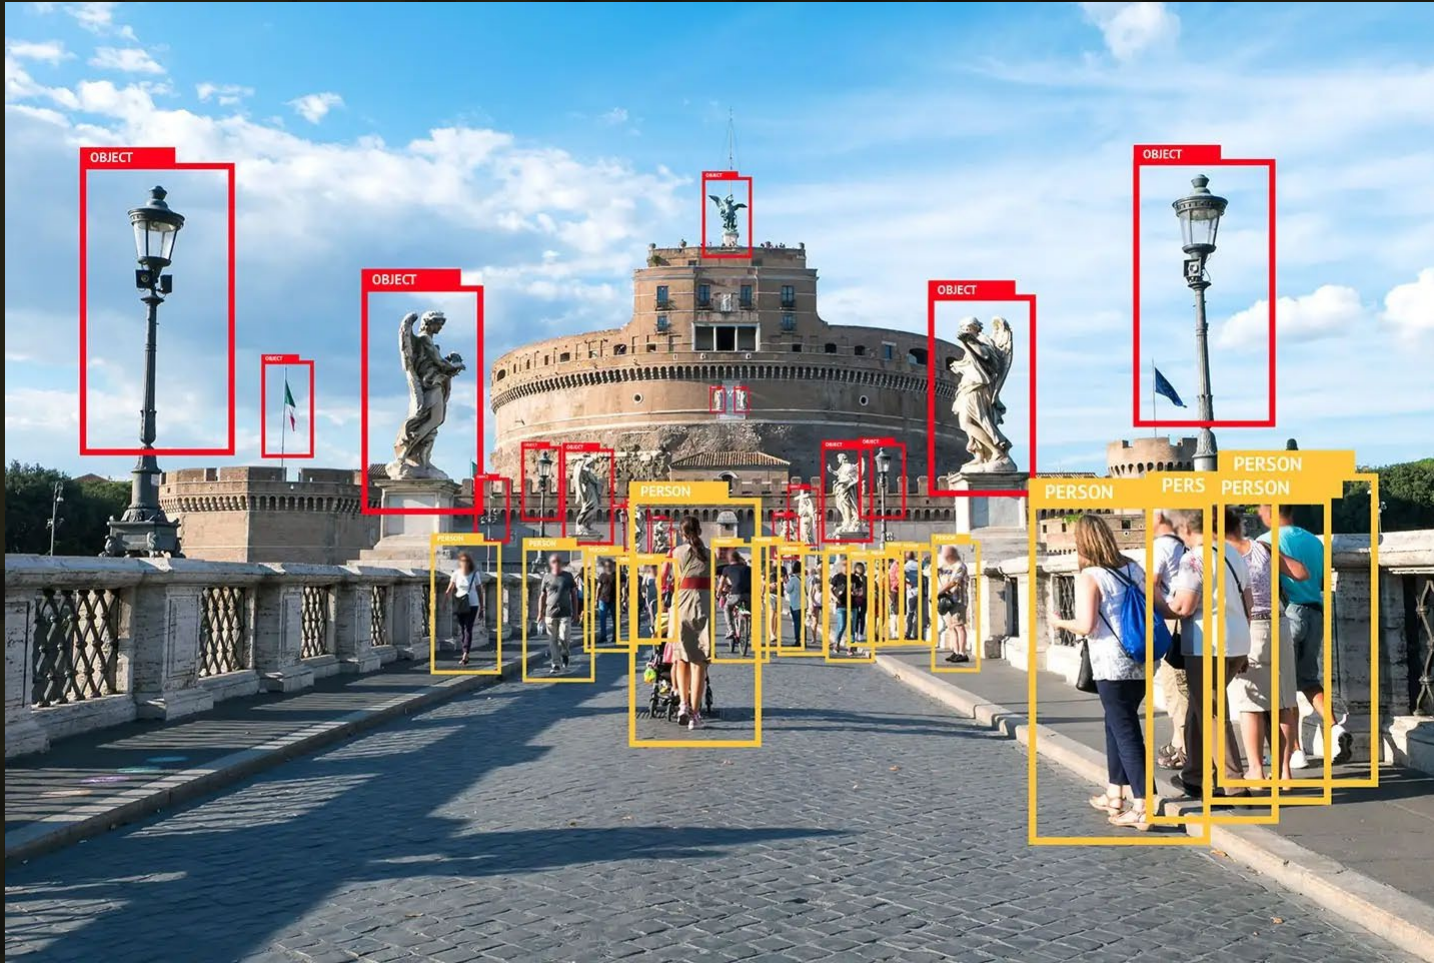

On designated cameras, the Personal Protection (Helmets) recognition features is available in the combobox over the camera

Mask wearing Control

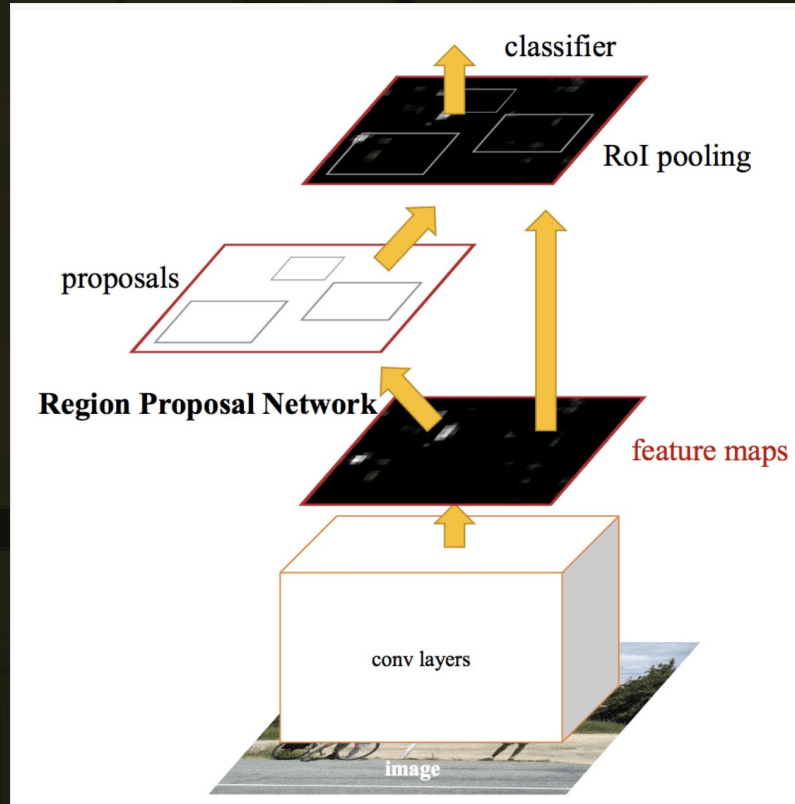

On designated cameras, the Mask wearing control, available in the upper combobox, recognize if the people that traverse the cameras are properly masked or not.

OBJECT DETECTION

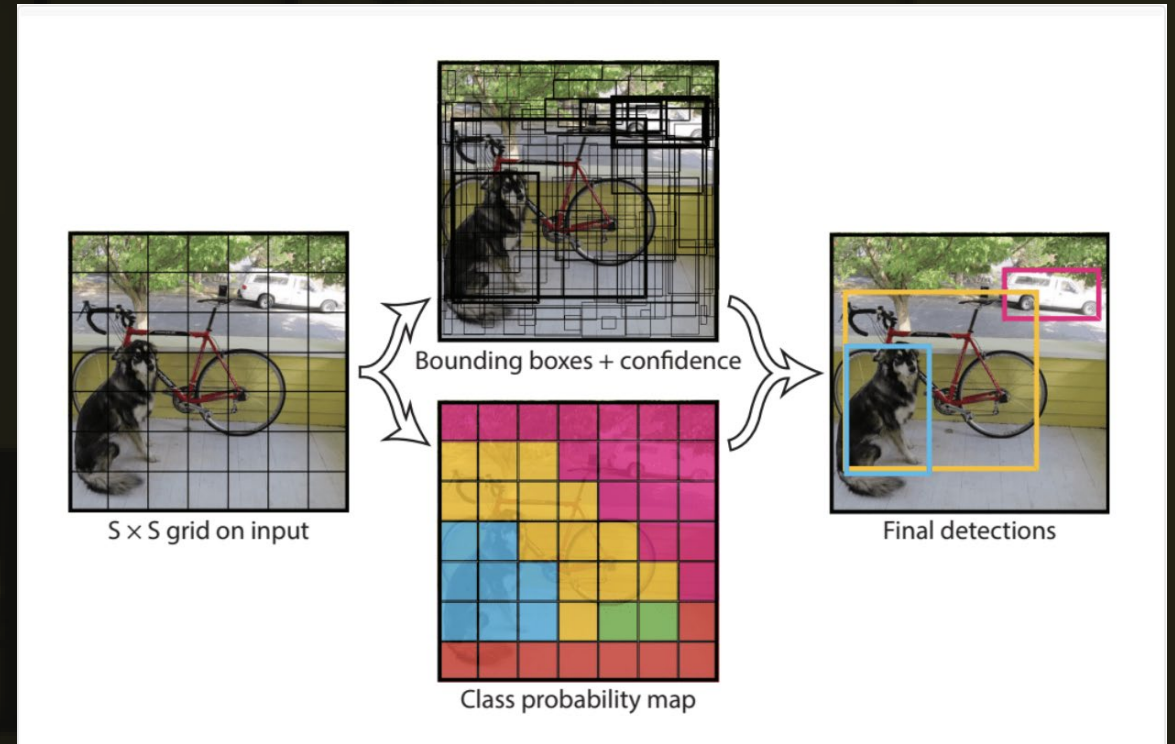

APPROACHES

FASTER R-CNN

VS

YOLO-V5

DATA INPUT 1/2

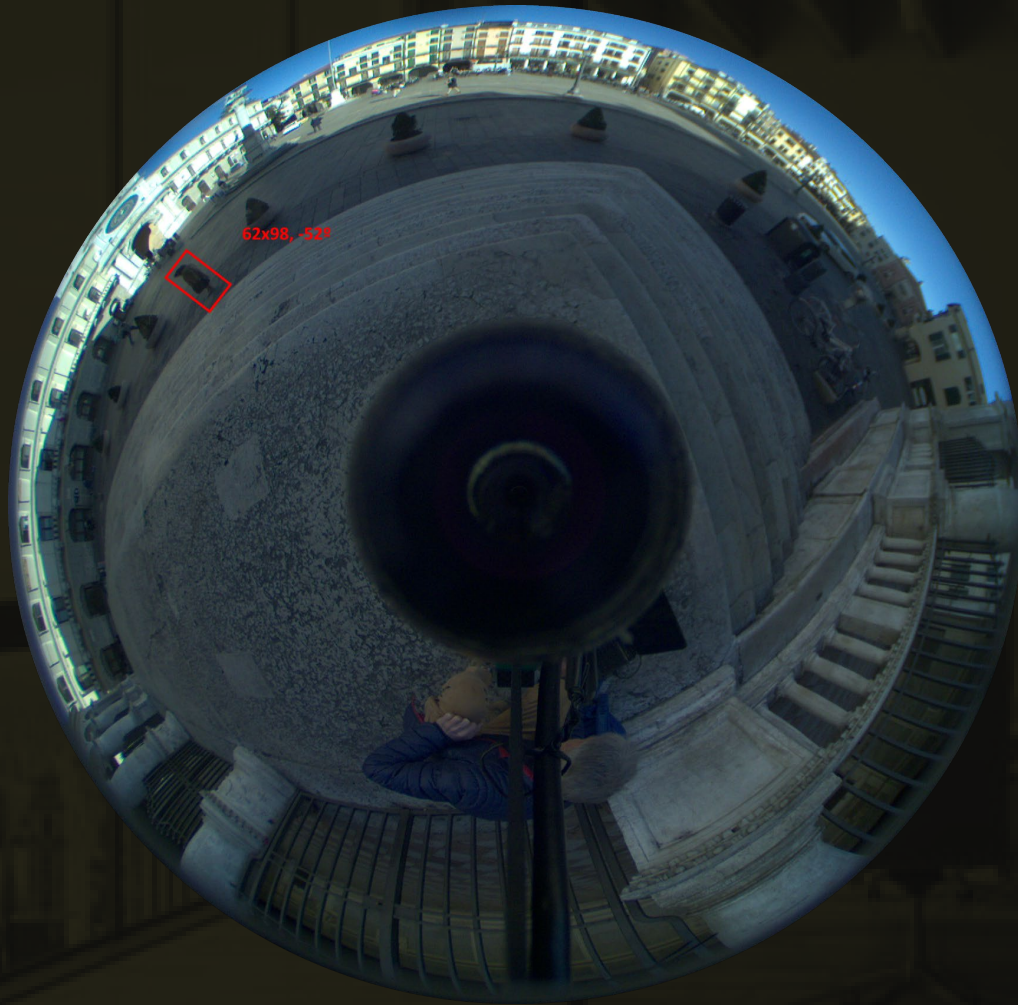

Warped

UnWarped

DATA INPUT 2/2

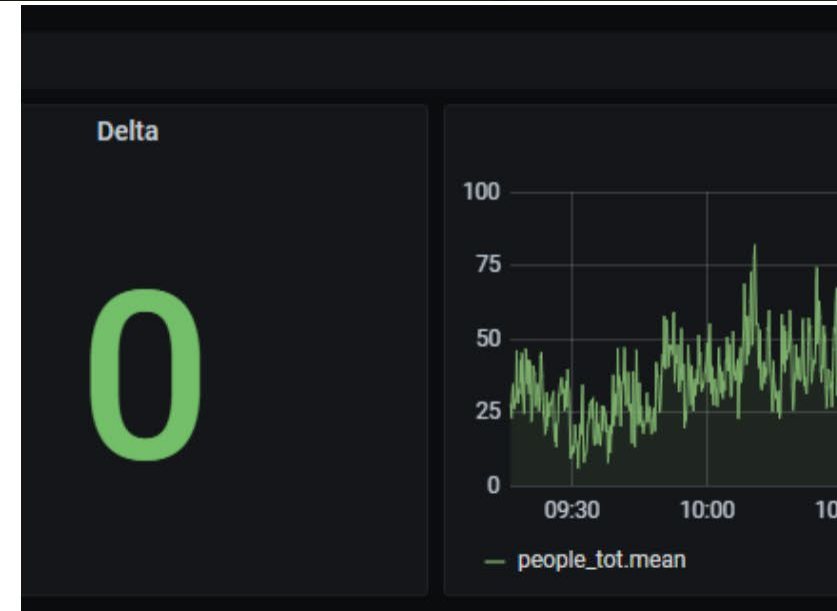

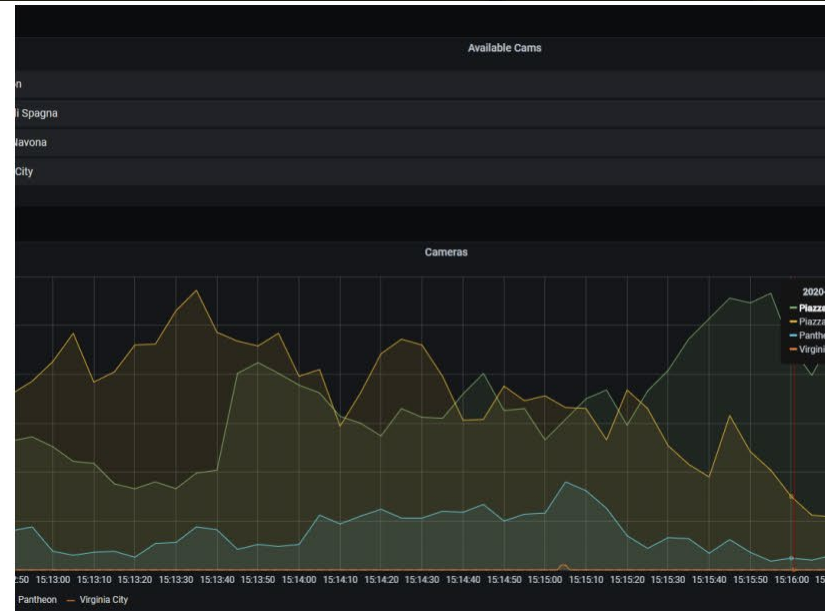

Warped 62x98

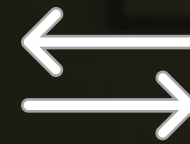

UnWarped 43x96

NEXT STEPS

SafePeople Integration

- People Detection
- Distance Estimation
- Reporting

An artificial intelligence built to assist,
provide solutions, and solve
real problems in many industries

THANK YOU!
