

EMMESI - Catania PLATO team collaboration meeting

Tuesday, 8 June 2021

Research in Catania (10:55 - 11:35)

time	[id] title	presenter
10:55	[8] Stellar age dating: improving gyrochronology and new methods	MESSINA, Sergio
11:00	[17] Measuring stellar rotation for the PLATO mission	DEL SORDO, Fabio
11:05	[10] Asteroseismology of active stars	CORSARO, Enrico BONANNO, Alfio
11:15	[11] High-resolution spectroscopy of exo-atmosphere	SICILIA, Daniela
11:20	[12] Phase curves of exoplanets from space	SINGH, Vikash
11:25	[13] Planetary transits and stellar activity	BRUNO, Giovanni
11:30	[14] Activity of young stars and internal heating of ultra-short period planet	LANZA, Nuccio
