

HRMOS science workshop

Monday, October 18, 2021

Day 1: Day 1 (9:00 AM - 1:05 PM)

-Conveners: Gayandhi De Silva

time	[id] title	presenter
9:00 AM	[42] Introduction to the project	RANDICH, Maria Sofia
9:15 AM	[41] The VLT in the 2030's	Dr MERAND, Antoine
9:40 AM	[16] Probing the origin of globular clusters and their multiple stellar populations: the key role of HRMOS	D'ORAZI, Valentina
10:05 AM	[20] HRMOS and metallicity variations in globular clusters	MARINO, Anna
10:20 AM	[27] Another brick in the bulge: On the nature of the globular cluster Palomar 6	SOUZA, Stefano
10:35 AM	Break	
11:20 AM	[32] Black holes in star clusters	GIELES, Mark
11:45 AM	[4] Simulating Globular Cluster Dynamics with HRMOS	BAUMGARDT, Holger
12:10 PM	[5] The chemical composition of young open clusters: is it real or not?	BARATELLA, Martina
12:25 PM	[22] Open clusters science with HRMOS	SPINA, Lorenzo
12:50 PM	[8] Kinematic studies of stellar systems with HRMOS	SACCO, Giuseppe Germano
