Astronomical Science, Astronomical Challenges at the Pawsey Supercomputing Centre

Wednesday, 3 November 2021 07:10 (30 minutes)

After introducing the Pawsey Supercomputing Centre and describing the new HPC infrastructure being deployed, the presentation will focus on the astronomy projects supported at the centre, giving insights on current and future challenges, ending with an overview of the technology landscape and how future developments in technology will affect the scientific discovery workflow.

Presenter: VARETTO, Ugo (Pawsey Supercomputing Centre, Perth, Australia)

Session Classification: Featured presentation 1: chair S. Tingay
