

International Conference on Machine Learning for Astrophysics - ML4Astro

Tuesday, 31 May 2022

Unsupervised Learning and Pattern Discovery (09:50 - 11:10)

-Conveners: Santiago Gonzalez-Gaitan

time	[id] title	presenter
09:50	[26] Unsupervised classification reveals new evolutionary pathways	SIUDEK, Malgorzata
10:10	[173] An unsupervised approach to galaxy spectra classification	DUBOIS, Julien
10:30	[13] Patterns in the chaos? An unsupervised view of Galactic SNRs	BORDIU, Cristobal
10:50	[12] Modelling Galactic Microwave emission with ML techniques	PUGLISI, Giuseppe
