International Conference on Machine Learning for Astrophysics - ML4Astro

Tuesday, 31 May 2022

Transients and Time Series: Session 2 **(17:00 - 18:00)**

time	[id] title	presenter
17:00	[17] Finding stellar flares with recurrent deep neural networks	BODI, Attila
17:20	[19] Classifying Supernova Time-Series Photometry with Convolutional Neural Networks	QU, Helen
17:40	[164] An Unsupervised Dive Into Gamma-ray Burst Afterglow Classification	AYACHE, Eliot
