

7th GAPS Progress Meeting

Wednesday 4 November 2015

Status of the program elements: (including reports on work and papers in progress) - Aula Ovest (16:30 - 17:30)

time	[id] title	presenter
16:30	[8] Status of the Metal Poor Stars program	SOZZETTI, Alessandro
17:00	[9] Status of the Open Cluster program and the first planetary system discovered by GAPS in an OC	MALAVOLTA, Luca

Thursday 5 November 2015

Status of the program elements: (including reports on work and papers in progress) - Aula Ovest (09:00 - 10:45)

time	[id] title	presenter
09:00	[15] status of the M-type star program	SOZZETTI, Alessandro MICELA, Giuseppina
09:15	[16] GJ3998 - GAPS-M87: A super-earth around an M star	AFFER, Laura
09:35	[17] Rotation, magnetic activity, and flux-flux relationships in M-type stars	SCANDARIATO, Gaetano MALDONADO PRADO, Jesus
10:00	[18] New masks for M stars	RAINER, Monica
10:15	[19] M107 – a status report	SOZZETTI, Alessandro
10:30	[44] Spectropolarimetry of M dwarfs to constrain RV jitter	Dr FARES, Rim

Status of the program elements: Status of the program elements - Aula Ovest (11:15 - 13:15)

time	[id] title	presenter
11:15	[20] Status of the program on known planetary systems	DESIDERA, Silvano
11:35	[21] The planetary system around HD 108874	BENATTI, Serena
11:55	[22] Structure and evolution of transiting giant planets: a Bayesian homogeneous determination of orbital and physical parameters	BONOMO, Aldo stefano
12:15	[23] Status of abundance analysis of stars with transiting planets	BIAZZO, Katia
12:35	[24] The Yale Radial Velocity Challenge: results and application for testing tools to detect low-mass planets	DAMASSO, Mario
12:55	[25] Status of the program on Rossiter-McLaughlin effect	COVINO, Elvira

Status of the program elements: Status of the program elements - Aula Ovest (14:30 - 15:00)

time	[id] title	presenter
14:30	[26] GAPS planets and further characterization	SCANDARIATO, Gaetano

Status of the program elements: Status of the program elements - Aula Ovest (17:00 - 18:00)

time	[id] title	presenter
17:00	[29] Star-planet interactions: lessons on chromospheric activity learned through the investigation of HD 17156	MAGGIO, Antonio
17:15	[30] Status of the investigation on line asymmetry indicators in active stars	LANZA, Antonino francesco
17:30	[31] Looking for reflected light in tau Bootis	BORSA, Francesco
17:45	[32] "Altri mondi e dintorni ...": status of outreach and education	BOCCATO, Caterina MASIERO, Sabrina
