

# National meeting STRADE-YODA

## Wednesday, 1 February 2023

**Accretion: Chair: Alessio Caratti o Gariatti (16:20 - 18:00)**

time	[id] title	presenter
16:20	[8] Review Accretion in distant clusters and effects of environment (25min+5min)	BIAZZO, Katia
16:50	[26] Contributed Talks	
	- [1] A new look to young galactic stellar population with MOONS and 4MOST (15min + 5min)	SACCO, Germano
	- [2] EWOCS: The Extended Westerlund One Chandra (and JWST) Survey (15min+5min)	GUARCELLO, Mario
	- [3] External photoevaporation in the $\sigma$ Orionis cluster (10min+2min)	MAUCO, Karina
	- [4] External Photo-evaporation in Protoplanetary Discs (10min+2min)	ANANIA, Rossella

# Thursday, 2 February 2023

## Accretion: Chair: Teresa Giannini (09:30 - 14:30)

time	[id] title	presenter
09:30	[13] TBD (15min+5min)	VAN DER SWAELMEN, Mathieu
09:50	[9] Accretion on Class I protostars (15min+5min)	FIORELLINO, Eleonora
10:10	[10] Contributed Talks	
	- [2] New accretors in the Lupus I cloud (10min+2min)	MAJIDI, Fatemeh
	- [1] From YSOs light curves to 3D models with Rubin LSST for a more inclusive Science (15min+5min: Online)	BONITO, Sara
10:45	Coffee Break (30 min)	
11:15	[27] Contributed Talks	
	- [2] Constraining disk evolution by measuring the mass accretion rates of Classical t-tauri stars.(10min+2min)	CLAES, Rik
	- [1] Magnetospheric accretion in classical TTauri stars: variability as a marker of stellar magnetic braking (15min+5min)	ZANNI, Claudio
11:50	[14] Discussion (60min)	CARLO MANARA, Juan Manuel Alcalá' &
13:00	Lunch break (1.5hour)
