

Fifth Workshop on Millimetre Astronomy in Italy

Monday, 12 June 2023

Local Universe (14:00 - 15:30)

time	[id] title	presenter
14:00	[9] Viviana Casasola - The Interstellar Medium in nearby galaxies (Review invited)	
14:30	[10] Alice Concas - Molecular gas and dust extinction relation revealed by ALMAQUEST	
14:50	[11] Francesco Salvestrini - Investigating molecular gas scaling relations in the local Universe: What drives the cycle of star formation?	
15:10	[12] Simone Bianchi - Exploring the mm-to-cm SED of nearby spirals
