

Fifth Workshop on Millimetre Astronomy in Italy

Tuesday, 13 June 2023

Planet-forming disks (09:00 - 11:00)

time	[id] title	presenter
09:00	[21] Anna Miotello - The Disk Exoplanet C/Onnection (Invited)	
09:25	[22] Francesca Bacciotti - Layered molecular outflows and disk substructures: the HL Tau case	
09:45	[23] Marta De Simone - Reveal the chemical history of young protostars combining mm and cm wavelengths	
10:05	[24] Stefano Facchini - The physico-chemical connection between nascent planets and their birth environment (Invited)	
10:30	[25] DISCUSSION on planet-forming disk science led by Davide Fedele and Giovanni Rosotti
