Star forming regions and open clusters (11:10 - 12:50)

-Conveners: Sofia Randich

time	[id] title	presenter
11:10	[96] Multi-Burst Star Formation in the Orion Nebula Cluster: Insights from the ADHOC Survey and Gaia DR3	BECCARI, Giacomo
11:30	[97] Spectroscopy of young red supergiants in the Galactic disc (in young clusters and associations)	FANELLI, Cristiano
11:50	[98] High resolution spectroscopy of open clusters: results from the SPA LP @TNG	BRAGAGLIA, Angela
12:10	[145] Studies of young open clusters with high-resolution spectroscopy and high-precision photometry	FRASCA, Antonio
12:30	[95] The Extended Westerlund One Chandra, and JWST, Survey (EWOCS): project status and preliminary results	GUARCELLO, Mario
