

# STARS (Across the Universe)

## Friday, 20 October 2023

### Galactic Disk (09:00 - 10:40)

-Conveners: Antonella Vallenari

time	[id] title	presenter
09:00	[111] Probing our Solar Neighbourhood: Stellar Yields, Formation Scenarios, and Stellar Radial Migration	PALLA, Marco
09:20	[112] The star formation history of the Milky Way disk	CIGNONI, Michele
09:40	[113] The Milky Way spiral structure & Outer disc kinematics with Cepheids	KHANNA, Shourya
10:00	[114] The chemical enrichment history of the Galactic thin disk traced by Classical Cepheids	BONO, Giuseppe
10:20	[154] The Galactic halo told by RR Lyrae stars	FIORENTINO, Giuliana
