

From star clusters to field populations: survived, destroyed and migrated clusters

Monday, November 20, 2023

Cluster demography (2:10 PM - 6:00 PM)

time	[id] title	presenter
2:10 PM	[20] Mapping the Galactic disc with field stars and open clusters	POGGIO, Eloisa
2:35 PM	[34] Parameter Estimation for Open Clusters using an Artificial Neural Network with a QuadTree-based Feature Extractor	CAVALLO, Lorenzo
3:00 PM	[23] Gaia, extinction, and the Galactic mid-plane	CANTAT-GAUDIN, Tristan
3:25 PM	[30] Investigating the formation and dispersion of star clusters with the multi-object spectrographs MOONS and 4MOST	SACCO, Giuseppe Germano
3:50 PM	[3] Open and Young clusters in WEAVE and 4MOST	VALLENARI, Antonella
4:15 PM	Coffee break	
4:45 PM	[11] High resolution spectroscopy of open clusters: results from the SPA LP @TNG	BRAGAGLIA, Angela
5:10 PM	[38] Discussion (Chair Sofia Randich)	Dr RANDICH, Maria Sofia
