From star clusters to field populations: survived, destroyed and migrated clusters

Monday, 20 November 2023

Cluster demography (14:10 - 18:00)

time	[id] title	presenter
14:10	[20] Mapping the Galactic disc with field stars and open clusters	POGGIO, Eloisa
14:35	[34] Parameter Estimation for Open Clusters using an Artificial Neural Network with a QuadTree-based Feature Extractor	CAVALLO, Lorenzo
15:00	[23] Gaia, extinction, and the Galactic mid-plane	CANTAT-GAUDIN, Tristan
15:25	[30] Investigating the formation and dispersion of star clusters with the multi-object spectrographs MOONS and 4MOST	SACCO, Giuseppe Germano
15:50	[3] Open and Young clusters in WEAVE and 4MOST	VALLENARI, Antonella
16:15	Coffee break	
16:45	[11] High resolution spectroscopy of open clusters: results from the SPA LP @TNG	BRAGAGLIA, Angela
17:10	[38] Discussion (Chair Sofia Randich)	Dr RANDICH, Maria Sofia
