

From star clusters to field populations: survived, destroyed and migrated clusters

Wednesday, 22 November 2023

Cluster perturbations (14:15 - 18:15)

time	[id] title	presenter
14:15	[12] Gravitational theory and the tidal tails of open star clusters	KROUPA, Pavel
14:40	[13] Tidal tails of open clusters	KOS, Janez
15:05	[5] The tidal arms of open star clusters uncovered with Gaia are much longer than thought	BOFFIN, Henri
15:30	Coffee break	
16:00	[25] Impacts of spiral arms on the kinematics of the young stars	KAWATA, Daisuke
16:25	Discussion (chair Laura Magrini)
