

XIV Torino Workshop on AGB stars

Wednesday, 12 June 2024

AGB stars in binary systems - Sala Gratton (11:30 - 12:50)

time	[id] title	presenter
11:30	[72] Mass transfer in AGB binaries revisited	POLS, Onno
11:50	[23] The Influence of Binary Evolution on the Nucleosynthesis of AGB Stars	OSBORN, Zara
12:10	[49] Dusty common envelope evolution	SIESS, Lionel
12:30	[39] Binary stars in the Gaia DR3 era	JORISSEN, Alain

Thursday, 13 June 2024

AGB stars in binary systems - Sala Gratton (09:00 - 11:30)

time	[id] title	presenter
09:00	[20] A search of AGB binaries: the case of V Hydrae	PLANQUART, Lea
09:20	[30] Revisiting 56 Ursae Majoris: Exit the barium star, enter the neutron-star companion	Dr ESCORZA, Ana
09:40	[45] Do Intrinsically s-process Enriched Evolved Binaries Exist?	MENON, Meghna
10:00	[63] Chemical depletion in evolved binaries with second-generation protoplanetary discs	MOHORIAN, Maksym
10:20	[38] Multiwavelength study of circumbinary disks around evolved binary stars with SPHERE	ANDRYCH, Kateryna
10:40	Coffee break
