The development of an AO system for a VLT instrument: from science cases to commissioning

Thursday 3 October 2024 11:00 (1h 30m)

This lecture outlines the process of designing an AO system for VLT, beginning with top-level requirements and covering the steps up to commissioning. The development experience of the UT4 instrument ERIS will be used as an example, highlighting challenges, solutions, and lessons learned.

Presenter: Dr RICCARDI, Armando (Istituto Nazionale di Astrofisica (INAF))

Session Classification: Class
