

OAPD days

Thursday 27 June 2024

Afternoon (14:00 - 15:35)

-Conveners: Sara Lucatello

time	[id] title	presenter
14:00	[161] Relativistic particles in star forming galaxies	PERSIC, Massimo
14:15	[157] Instrumentation control SW group: current projects and involved OAPd people	SALASNICH, Bernardo
14:35	[162] Stellar modeling: evolution with PARSEC and COLIBRI, including variability, asteroseismology, and opacities	COSTA, Guglielmo
14:55	[163] Surveying and modelling resolved stellar populations of nearby galaxies	PASTORELLI, Giada
15:15	[165] Galactic Archaeology with Machines and Novel Data	SPINA, Lorenzo

Friday 28 June 2024

Afternoon (14:00 - 15:40)

-Conveners: Kalyan Kumar Radhakrishnan Santhakumari

time	[id] title	presenter
14:00	[174] Super-Eddington accretion in quasars: the observational viewpoint	MARZIANI, Paola
14:20	[175] MATTO: a future facility for testing Multi-conjugated Adaptive Optics techniques	BALLONE, Alessandro
14:40	[176] SHARK-NIR: Hunting for Exoplanets and Beyond	GOMES MACHADO, Tania Sofia
15:00	[177] MAVIS on the VLT: the cutting-edge MCAO assisted imager and spectrograph for visible observations	REBRYSH, Oleksandra CERPELLONI, Paolo
15:20	[178] Optical Space Surveillance and Tracking (SST) and Space Situational Awareness (SSA)	ARCIDIACONO, Carmelo Dr ZAGGIA, Simone
