What is Chat s astronomkou?

What is Chat s astronomkou?

Series of outreach activities organised by **female astronomers** of the Astronomical Institute of the Czech Academy of Sciences between **11 February and 8 March** every year.

What is Chat s astronomkou?

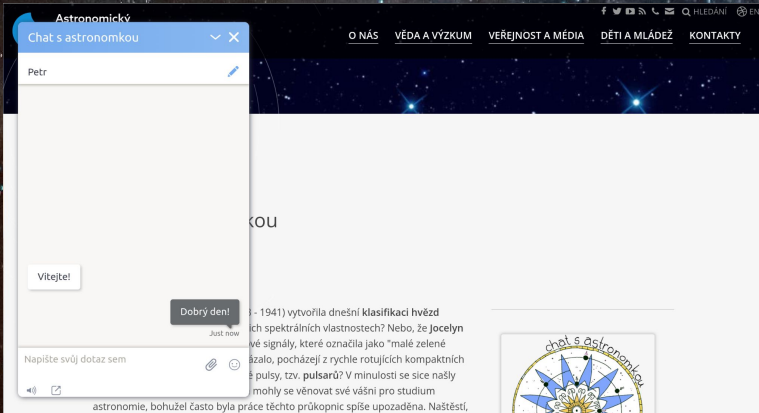

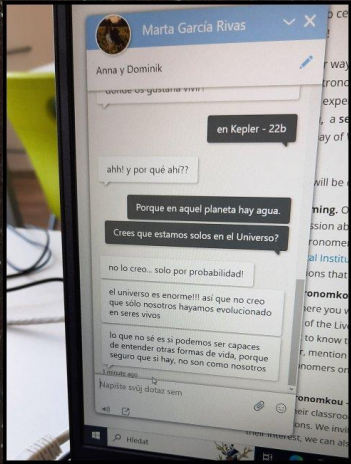

Inspired by **Chatea con una Astrónoma**, outreach activity organised by the Astronomical Spanish Society (SEA).

A deep space photograph showing a vast field of stars and a prominent nebula with blue and purple hues. The text "What are the activities?" is centered in the foreground.

What are the activities?

1. Chat with general public

An **open** (written) **chat** is activated on our website for **one day**.

Each user chats with **one astronomer**.

2. Chat with schools

Private (written) **chats** are scheduled with teachers **between 11.2 and 8.3** .

We use **different languages!** Czech, Slovak, English, Spanish...

3. Live streaming

A **live streaming** on a YouTube channel where the **audience can pose their questions** .

English, Czech and Slovak languages are combined.

5th edition coming soon!!

Every year we reach more people (and students!)
