

# Celebrating 20 years of Swift Discoveries

## Thursday 27 March 2025

### Multimessenger and multiwavelength Astronomy (09:00 - 10:30)

time	[id] title	presenter
09:00	[212] High energy astrophysical neutrinos: Open questions and future prospects	Prof. WAXMAN, Eli
09:30	[112] CTAO a new window for the multi-messenger and multi-wavelength astronomy	STAMERRA, Antonio
10:00	[75] The contributions of ESO to Swift followup over 20 years	TANVIR, Nial
10:15	[79] Swift's crucial role in the Einstein Probe era of Fast X-ray Transients	JONKER, Peter

### Multimessenger and multiwavelength Astronomy (11:00 - 11:30)

time	[id] title	presenter
11:00	[177] Multiwavelength Follow-up Observations of Astrophysical Neutrino Events	SHARPE, RileyAnne
11:15	[69] The Swift Perspective of Very High Energy Sources Observed with VERITAS	FURNISS, Amy
