

# Celebrating 20 years of Swift Discoveries

## Tuesday 25 March 2025

### GRB, GW and Kilonovae (17:30 - 18:00)

time	[id] title	presenter
17:30	[11] Impact of Systematic Modeling Uncertainties on Kilonova Property Estimation	BRETHAUER, Daniel
17:45	[27] Where has all the r-process gone? An Exploration of the Capacity for Swift GRB-Kilonovae to Enrich their Host Galaxies	NUGENT, Anya

# Wednesday 26 March 2025

## GRB, GW and Kilonovae (09:00 - 10:15)

time	[id] title	presenter
09:00	[213] Multi-messenger studies with GRBs: situation and perspectives	D'AVANZO, Paolo
09:30	[64] The impact of Swift on gravitational wave astronomy	Dr RONCHINI, Samuele
09:45	[90] The Diversity of Electromagnetic Counterparts to Neutron Star Mergers Revealed by Swift	RASTINEJAD, Jillian
10:00	[36] Gravitational-Wave Follow-Up Strategy for the UltraViolet EXplorer (UVEX) Mission	CENKO, Brad
