

2nd Metis Science Meeting

Tuesday 28 January 2025

Metis & Friends: PROBA3 science overview (Invited) (15:30 - 16:00)

-Conveners: Andrei Zhukov

Metis & Friends: CODEX Perspectives for Joint Science with Metis, ASPIICS (16:00 - 16:30)

-Conveners: Silvano Fineschi

Metis & Friends: ASPIICS-Metis science planning proposals: future possibilities for CME observations (16:30 - 16:45)

-Conveners: Emanuele Amato

Metis & Friends: PROBA3-Metis science planning proposals (16:45 - 17:00)

Metis & Friends: CODEX planning proposals (17:00 - 17:20)

Wednesday 29 January 2025

Metis & Friends: News on MUSE (09:00 - 09:30)

-Conveners: Fabio Reale

Metis & Friends: The ultimate EUV solar spectrometer: SOLAR-C/EUVST (09:30 - 10:00)

-Conveners: Vincenzo Andretta

Metis & Friends: The European Solar Telescope: Current Status and Scientific Potential (Invited) (10:00 - 10:30)

-Conveners: Francesco Berrilli

Metis & Friends: IBIS 2.0 Interferometric Bidimensional Spectrometer 2.0: overview and current status (10:30 - 11:00)

-Conveners: Ilaria Ermolli

Metis & Friends: Radio facilities for Solar and Heliospheric Physics (Invited) (11:20 - 11:50)

-Conveners: Alberto Paolo Pellizzoni

Metis & Friends: HPC for the Italian Solar Physics Community (Invited) (11:50 - 12:20)

-Conveners: Paolo Pagano

Metis & Friends: Machine Learning e Artificial Intelligence applied to Solar and Heliospheric Physics (Invited) (12:20 - 12:50)

-Conveners: michele piana
