

Open Data Long Term Data Preservation for HEP: the CNAF Experience

Friday 28 February 2025 09:20 (20 minutes)

In this talk, we quickly remind the FAIR data principles, the importance and need for Long Term Data Preservation (LTDP) solutions in High Energy Physics (HEP). We present a case study of the CDF experiment. We showcase how CNAF addressed the preservation challenges highlighting both technical solutions and broader implications for open science and data fairness. We finally share the insights gained through this experience.

Primary author: Dr DELL'ANGELO, Luca (INFN-CNAF)

Co-author: DAL PRA, Stefano (INFN-CNAF)

Presenter: DAL PRA, Stefano (INFN-CNAF)

Session Classification: Session 9 - Open Science, FAIR and Interoperability
