Astrodata Status Report

Thursday 29 May 2025 10:00 (15 minutes)

In this update, we would like to provide you with an overview of the list of features that will make up the Astrodata tool, which we have now outlined with precision and detail. The various features will enable the creation of a framework that can be used to robustly apply machine learning algorithms within the workflow of astrophysical research. We will also report on the development progress of each feature.

Presenter: GIANNUZZI, Davide (Alkemy)

Session Classification: Bandi a Cascata
