Astrovisio Status Report

Thursday 29 May 2025 11:45 (15 minutes)

In this update, we would like to show the progress of the Astrovisio project regarding the implementation of the API for data management and the development of the Unity application for VR visualization. In particular, we will present the first version of the desktop application and a VR visualization based on FITS data selected in collaboration with a team of astrophysicists from the Scuola Normale Superiore in Pisa.

Presenter: POSILLIPO, Davide (Alkemy)

Session Classification: Bandi a Cascata
