

Session Program

5-7 May 2025

Maximizing MeerKAT's full potential: the scientific roadmap for band5B

Galactic Science

INAF - Osservatorio Astrofisico di Catania, Aula Ovest
Via Santa Sofia 78, Catania

Monday 5 May

14:30

Galactic Science

Session | **Location:** INAF - Osservatorio Astrofisico di Catania, Aula Ovest, Via Santa Sofia 78, Catania

14:30–15:00

Complex organic molecules in Solar System precursors (on-line) - Area 1

Speaker

E. Bianchi

15:45

15:00–15:45

Discussion Area 1

16:15

Galactic Science

Session | **Location:** INAF - Osservatorio Astrofisico di Catania, Aula Ovest, Via Santa Sofia 78, Catania

16:15–16:45

The Galactic Centre - Area 2

Speaker

C. Trigilio

18:00

16:45–17:30

Discussion Area 2

17:30–18:00

General Discussion

Tuesday 6 May

09:00

Galactic Science

Session | **Location:** INAF - Osservatorio Astrofisico di Catania, Aula Ovest, Via Santa Sofia 78, Catania

09:00–09:30

Pulsars in the Galactic Centre - Area 3

Speaker

A. Possenti

09:30–10:15

Discussion Area 3

10:15–10:45

Star formation and census of HII regions - Area 4

Speaker

A. Traficante

10:45

11:15

Galactic Science

Session | **Location:** INAF - Osservatorio Astrofisico di Catania, Aula Ovest, Via Santa Sofia 78, Catania

11:15–12:00

Discussion Area 4

12:00
