

Session Program

25-27 Mar 2026

On the shoulders of giants

***Cold Jupiters AND inner low-mass planets
(individual systems and statistical analyses) -
inside-out***

Archivio di Stato - Torino, Italy
Piazza Castello 209 - 10124 Turin

Thursday 26 March

09:45

Cold Jupiters AND inner low-mass planets (individual systems and statistical analyses) - inside-out

Session | **Location:** Archivio di Stato - Torino, Italy, Piazza Castello 209 - 10124 Turin

09:45-10:10

Results from the Kepler-Keck Giant Planet Search (invited talk)

Speaker

Dr Lauren Weiss

10:35

10:10-10:35

Results from the TESS-Keck Distant Giants Survey (invited talk)

Speaker

Dr Judah Van Zandt

11:05

Cold Jupiters AND inner low-mass planets (individual systems and statistical analyses) - inside-out

Session | **Location:** Archivio di Stato - Torino, Italy, Piazza Castello 209 - 10124 Turin

11:05-11:30

Results from the HARPS-N Survey of Kepler, K2, and TESS small-planet systems (invited talk)

Speaker

Dr Luca Naponiello

11:30-11:55

The Jupiter/super-Earth connection from global samples: How gas giants shape the lives of small worlds (invited talk)

Speaker

Dr Marta Bryan

11:55-12:15

Searching for Cold Jupiters with VLT/SPHERE in planetary systems hosting close-in low-mass planets

Speaker

Dr Célia Desgrange

12:15
