

Quasars at all cosmic epochs

Monday, 3 April 2017

Invited Talk: Padovani, P. - Quasars at all wavelengths and from all angles (09:00 - 09:30)

Invited Talk: Storchi-Bergmann, T. - Feeding of Supermassive Black Holes - from the accretion disk to hundred parsec scales (14:30 - 15:00)

Tuesday, 4 April 2017

Invited Talk: Marquez, I. - The AGN nature of LINER nuclear sources (08:45 - 09:15)

Invited Talk: Richards, G. - Quasar physics from spectral energy distributions (11:05 - 11:35)

Invited Talk: Elitzur, M. - The AGN as a protostar (14:30 - 15:00)

Wednesday, 5 April 2017

Invited Talk: Sulentic, J. - A main sequence for quasars (TBC) (08:45 - 09:15)

Thursday, 6 April 2017

Invited Talk: Morganti, R. - The many routes to AGN feedback (14:30 - 15:00)

Friday, 7 April 2017

Invited Talk: La Franca, F. - A new cosmological distance Mmeasure using AGN X-Ray variability (08:45 - 09:15)
