

Luigi Stella

A tribute to Tomaso

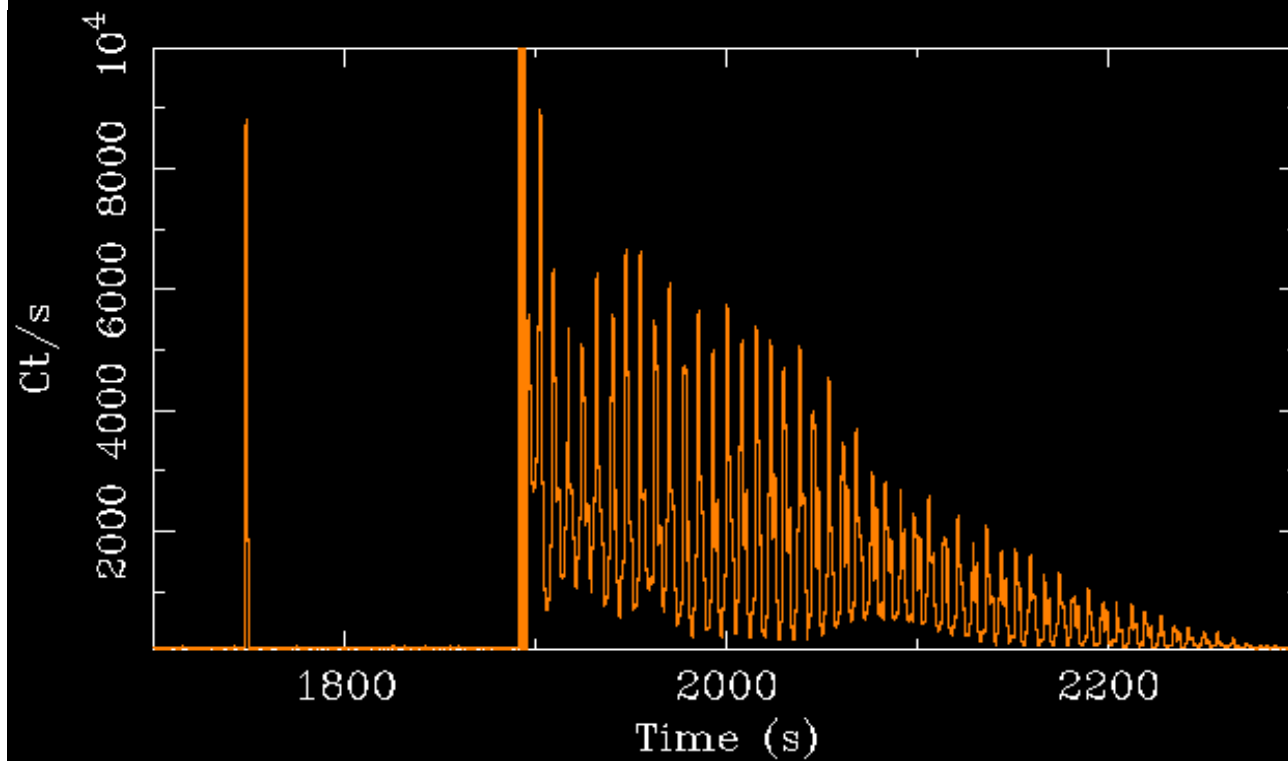

SGR 1806-20: Giant Flare of 2004 Dec 27

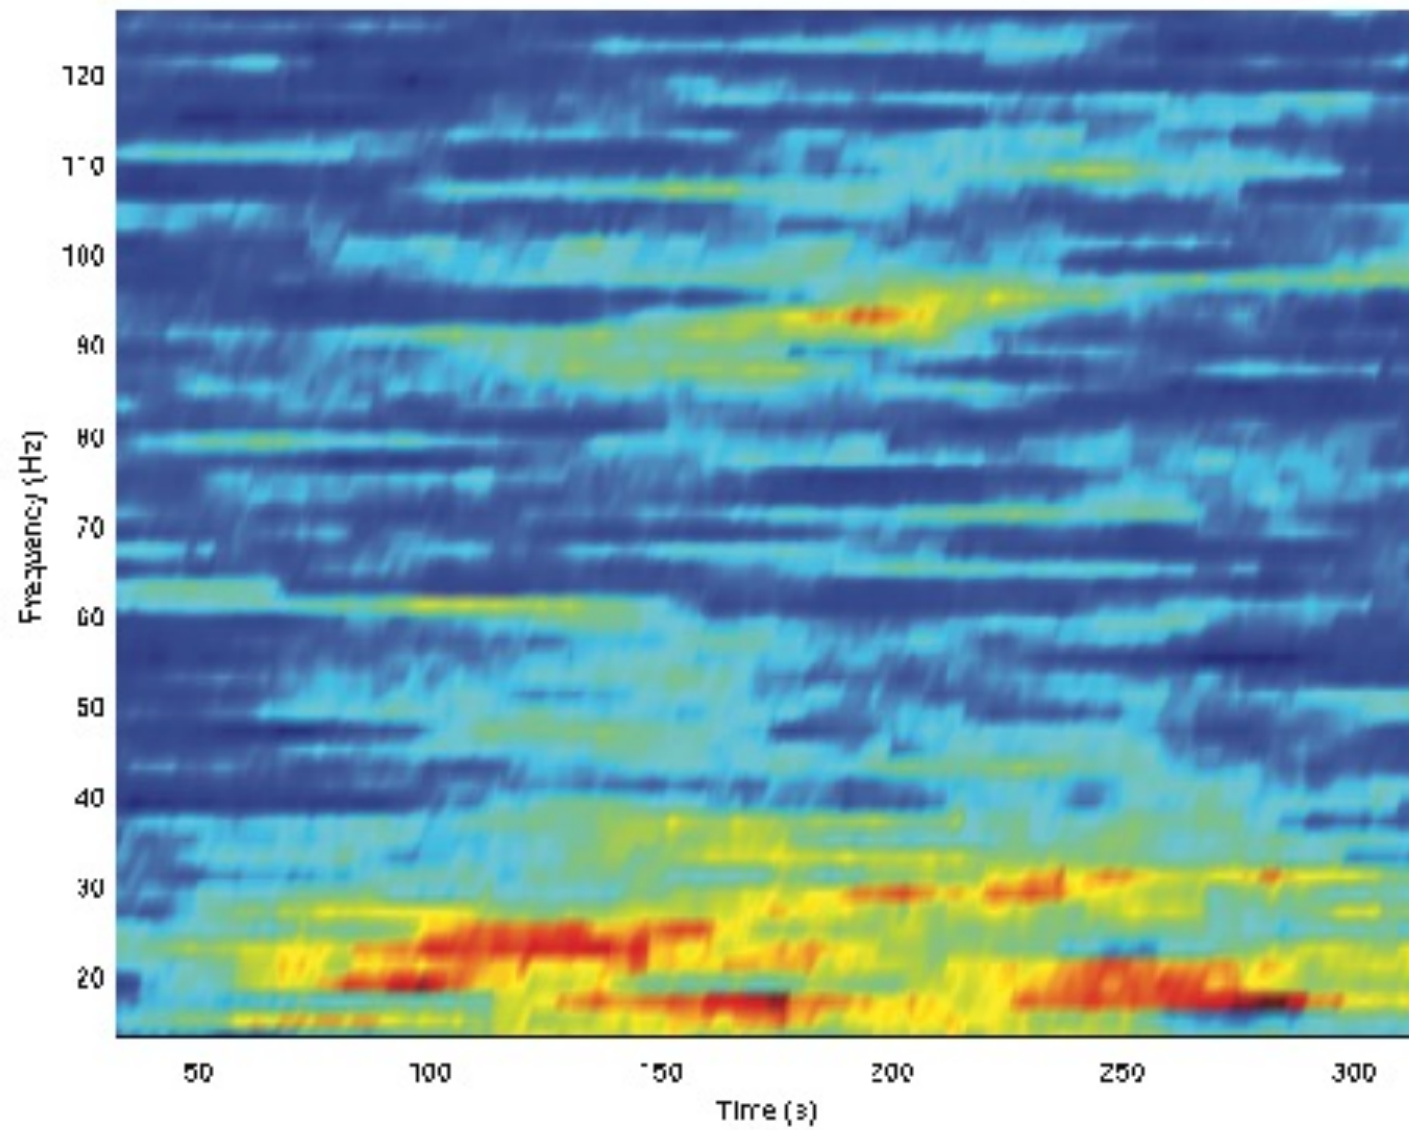

Moon reverberation seen !

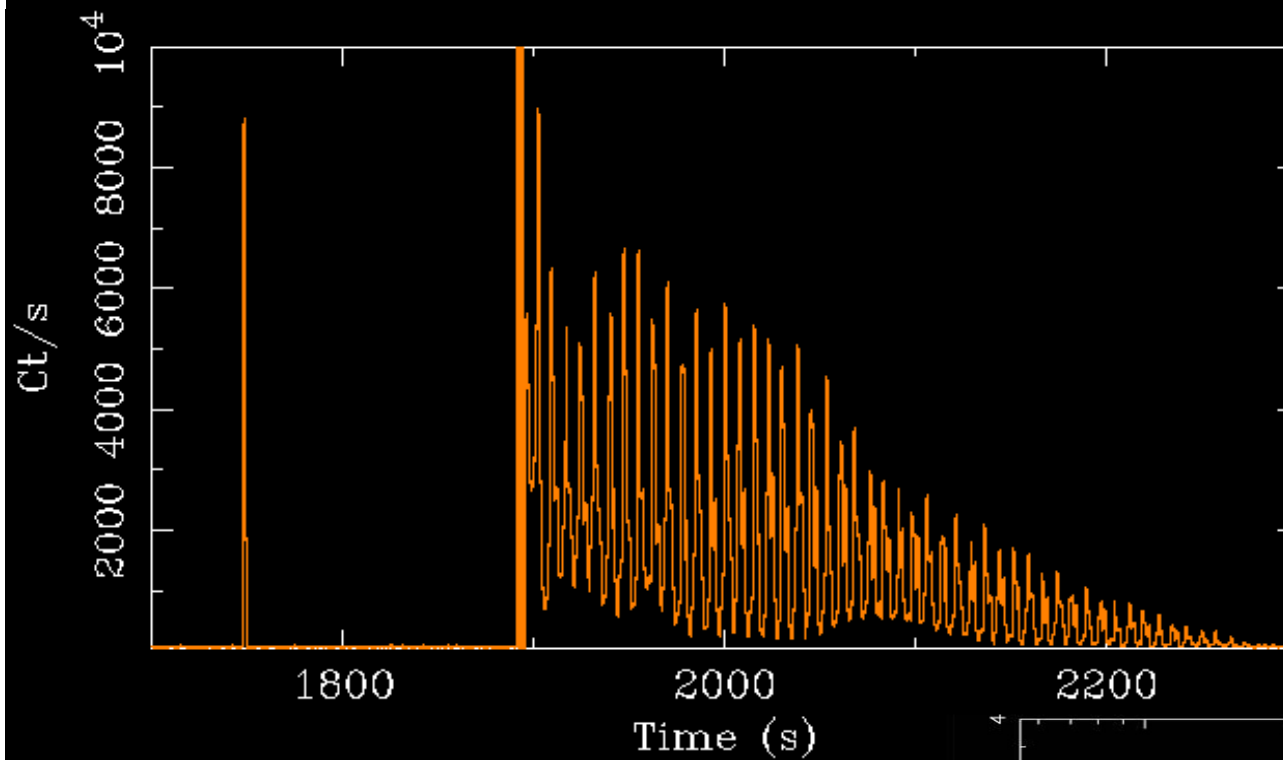

2004 Dec 27 giant flare from SGR1806-20: fast timing

RXTE was observing a cluster of galaxies.

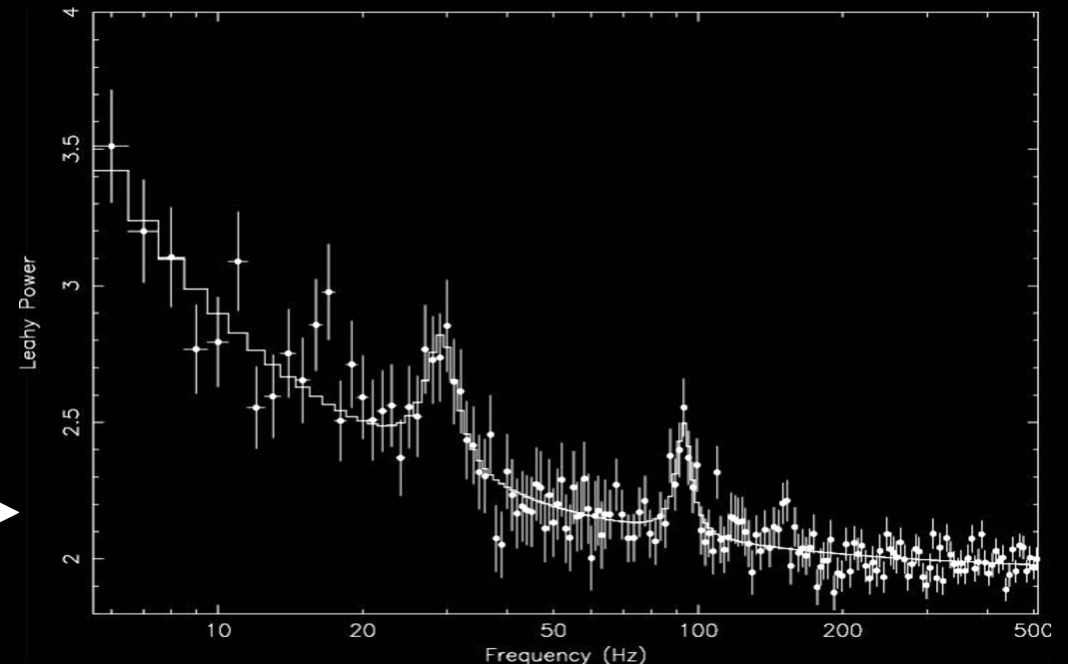

2004 Dec 27 giant flare from SGR1806-20: fast timing

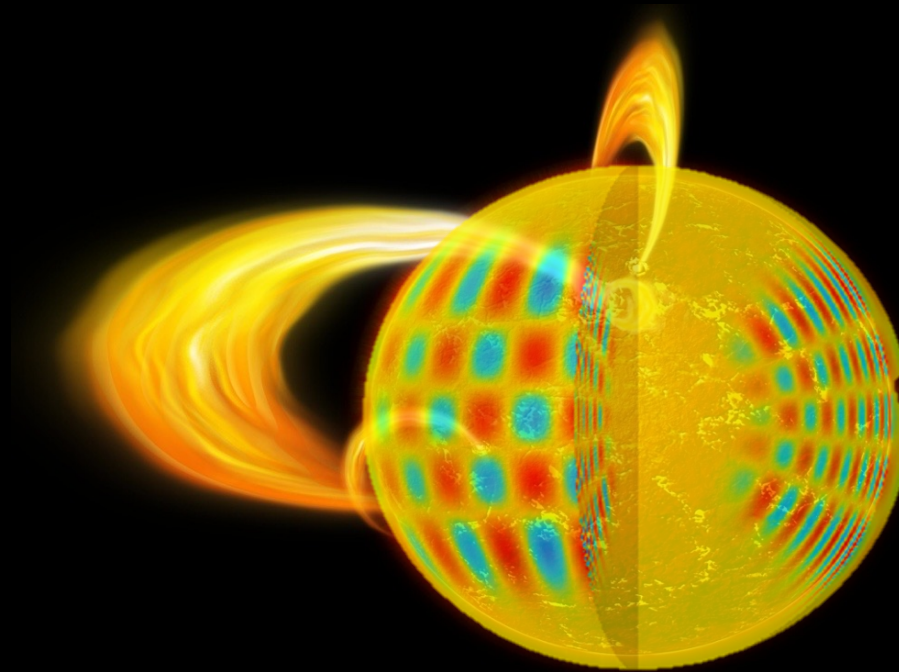

RXTE was observing a cluster of galaxies.

Total power spectrum of RXTE
high resolution data

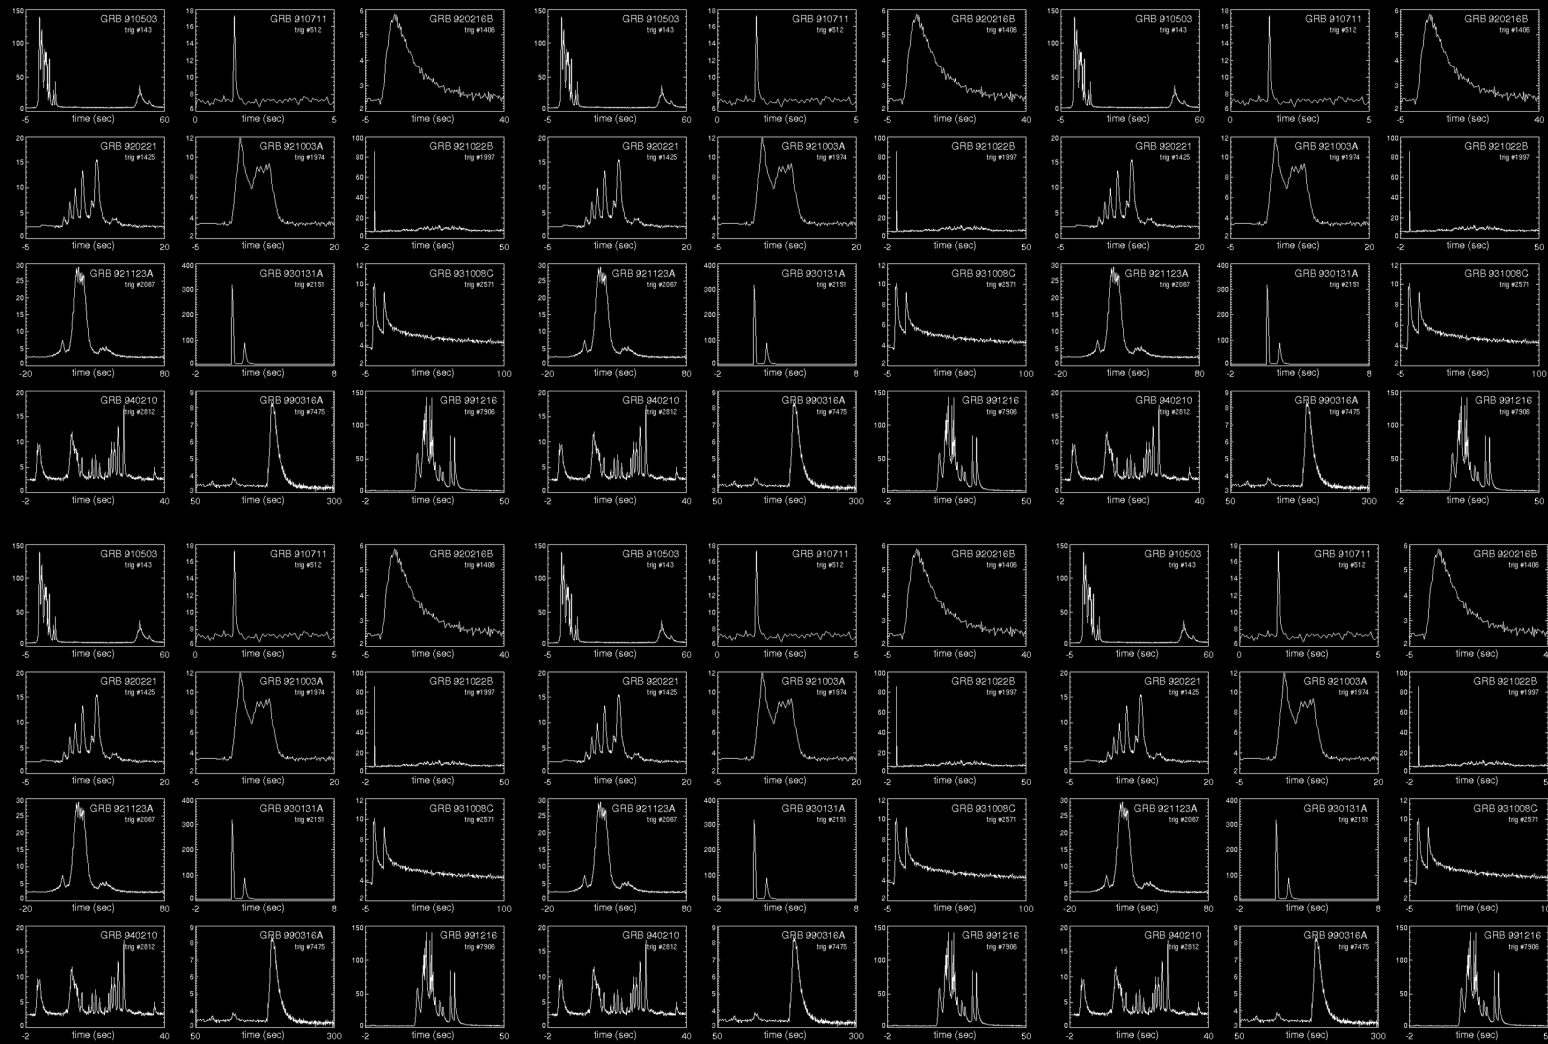

Magnetar Seismology

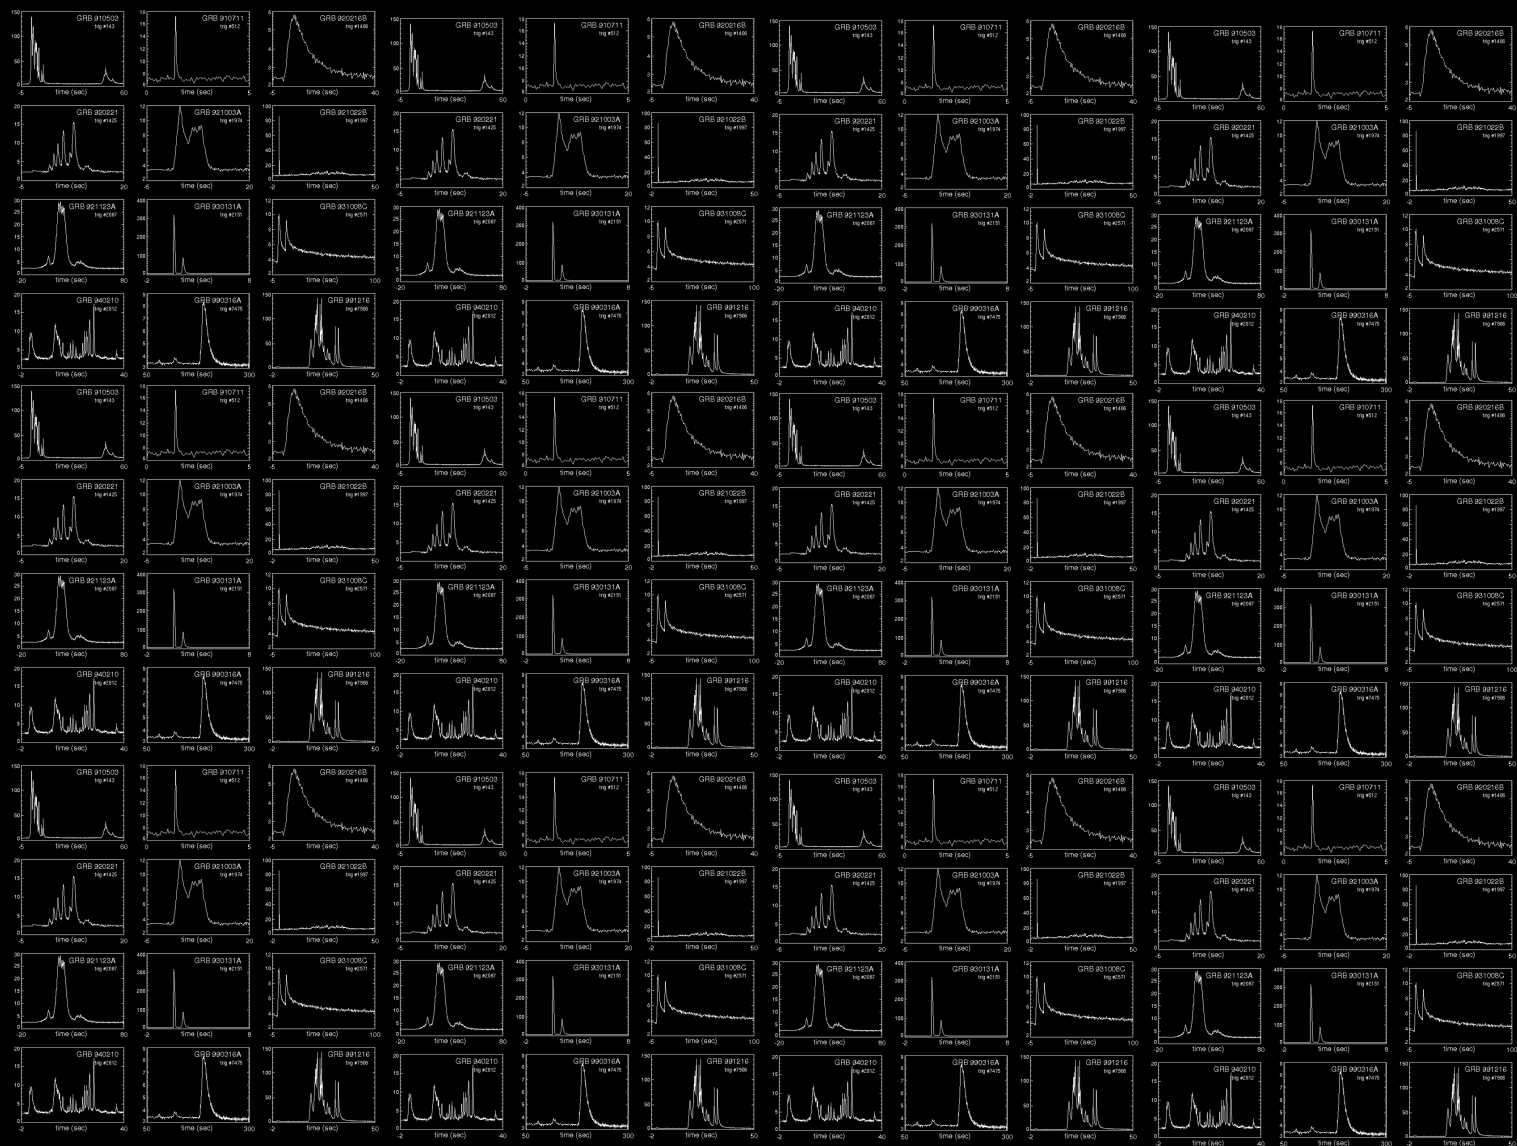

Starquakes on magnetars trigger global seismic vibrations.

Seismic models depend on M and R . Frequencies can constrain the EOS.

72 graphs in a single slide

> 130 graphs in a single slide !

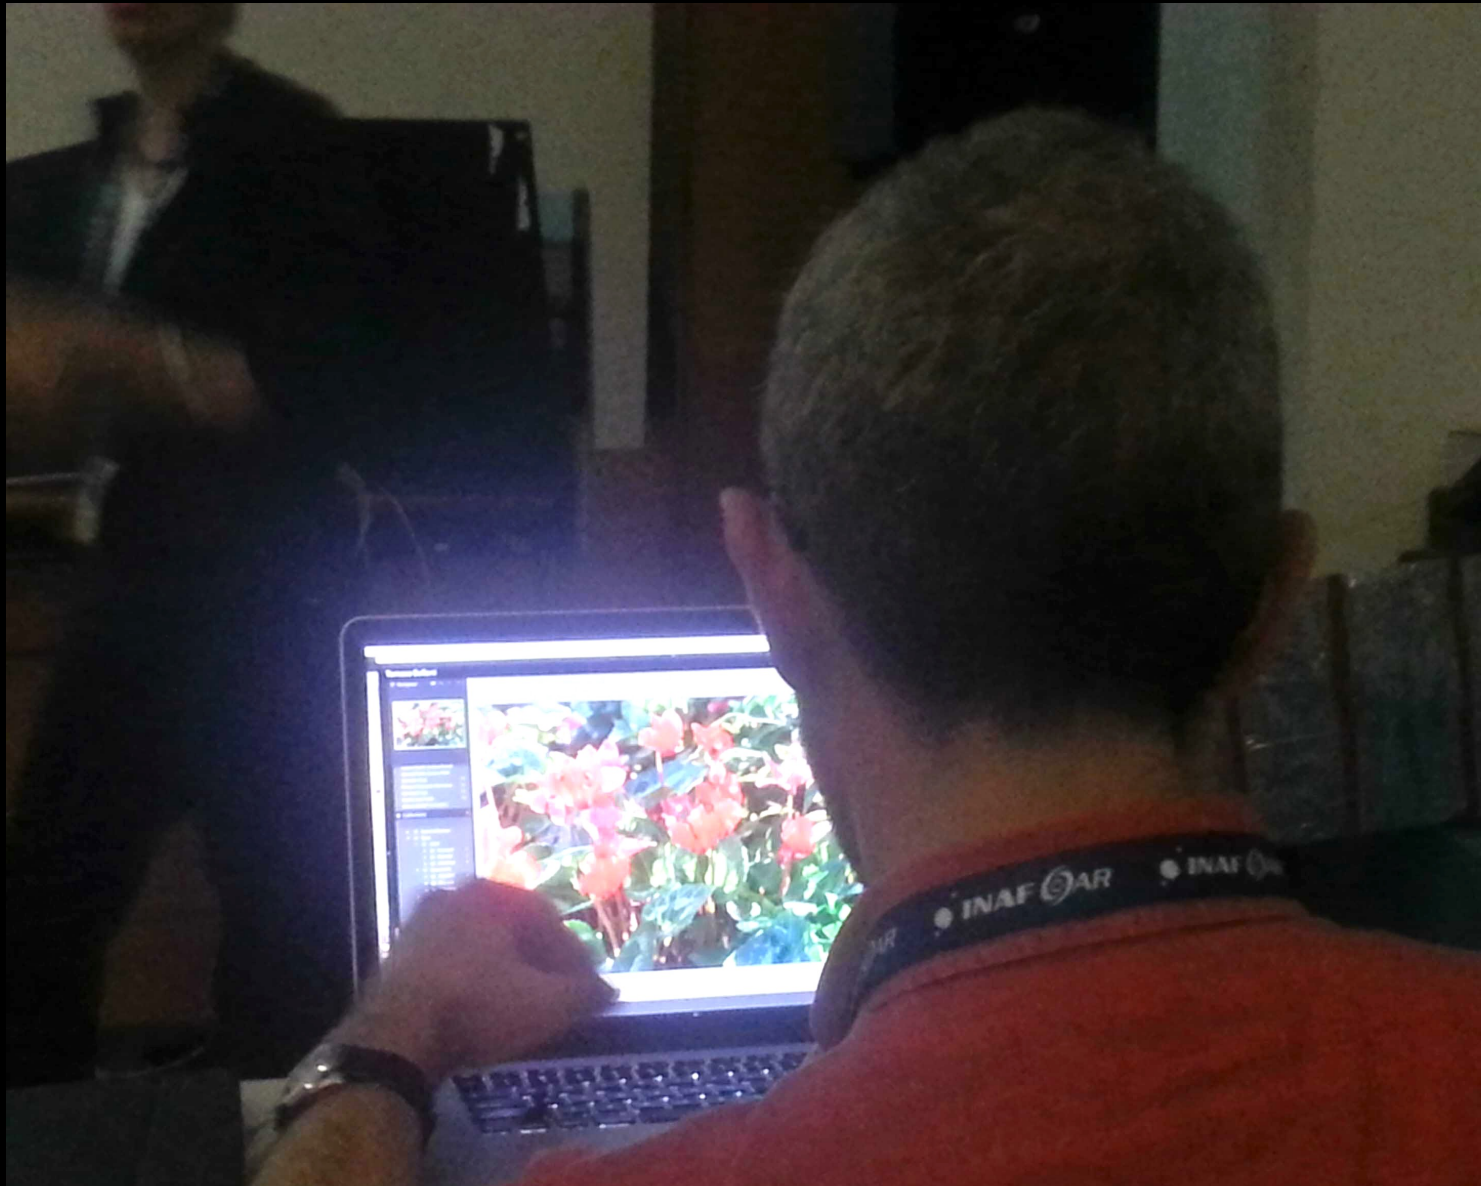

Records are meant to be broken

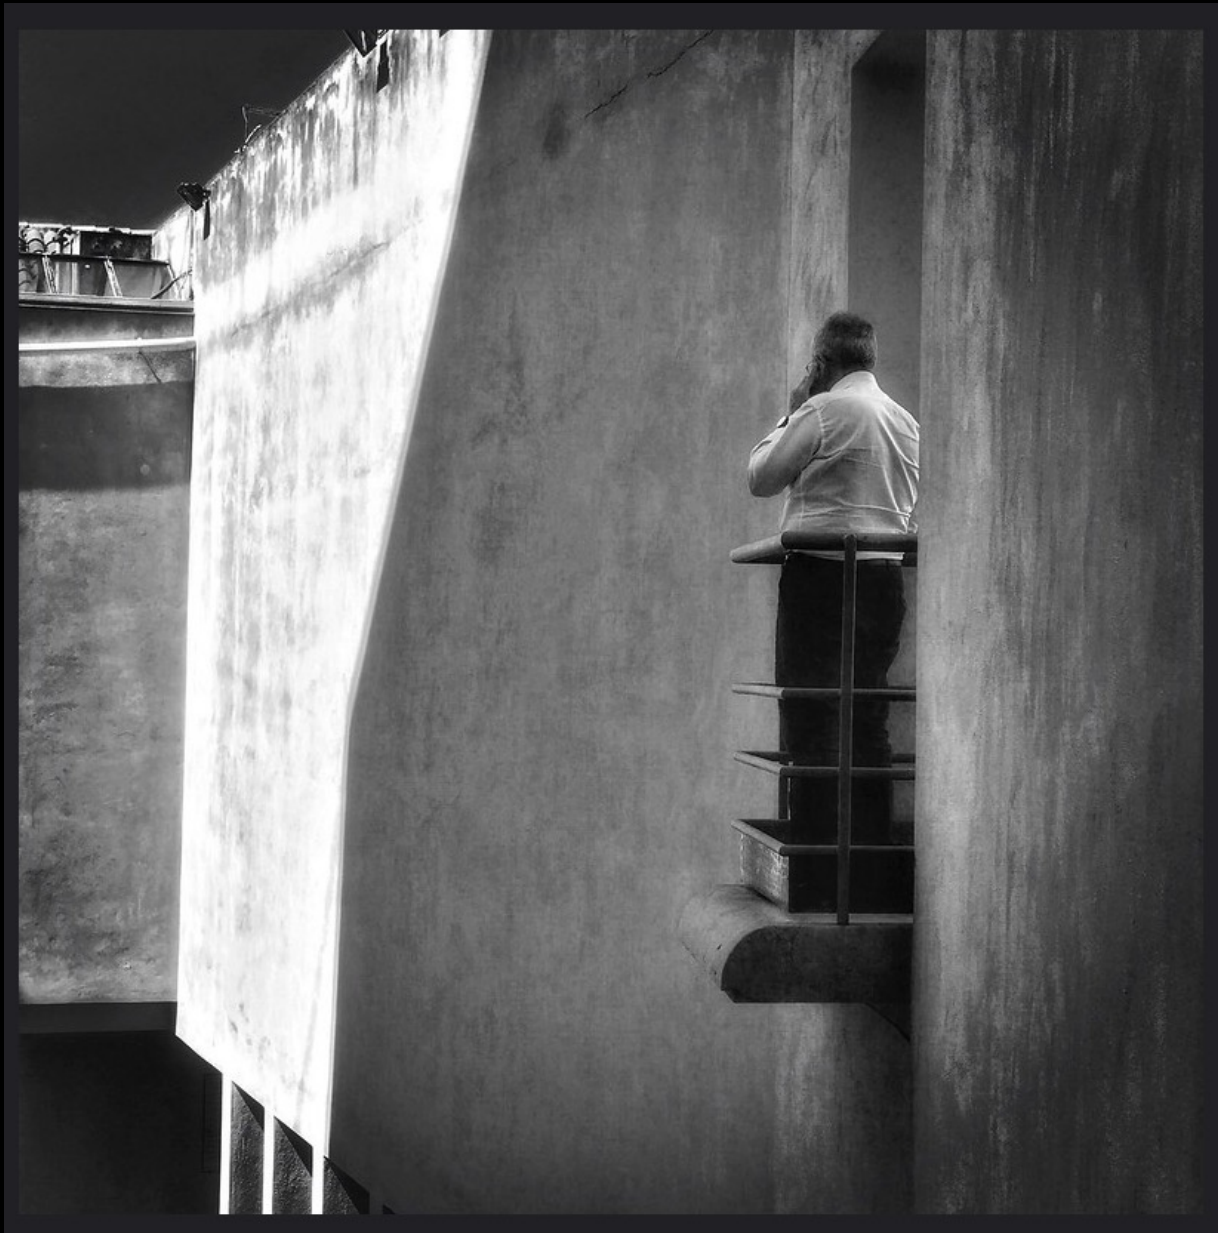

Tomaso's Interests

- Novels
- Poetry
- Art
- Humanities
- Technology
- Architecture
- Politics
- Music
- Sports
