

Session Program

7-11 Sept 2026

The many tones of accretion - to the memory of Tomaso Belloni

Multi-wavelength, Jets & Winds. Session 3.1: Accretion/Ejection

Cefalù

Cefalù, province of Palermo, Sicily. Sala delle Capriate in the Town Hall (Piazza Duomo).

Wednesday 9 September

11:30

Multi-wavelength, Jets & Winds. Session 3.1: Accretion/Ejection

Session | **Location:** Cefalù, Cefalù, province of Palermo, Sicily. Sala delle Capriate in the Town Hall (Piazza Duomo).

11:30-12:00

Accretion - ejection coupling in X-ray binaries

Speaker

Rob Fender

12:00-12:15

Modelling the kinematics of large-scale jets from black hole X-ray binaries

Speaker

Francesco Carotenuto

12:15-12:30

Load and behold: simulating the launching and mass loading of discrete ejecta in X-ray binaries

Speaker

Katherine Savard

12:30-12:45

The peculiar outburst of the black hole binary candidate 4U 1630-47: unveiling the radio polarimetry with MeerKAT

Speaker

Isabella Mariani

12:45-13:00

Coupling accretion flow and jets in black hole X-ray binaries: insights from the multi-wavelength emission of Cygnus X-1

Speaker

Julien Malzac

13:00
