

## **Session Program**

**10-12 Feb 2026**

# **Multimessenger astronomy in the Einstein Telescope Era**

## ***The present and future of GW facilities at all frequencies***

Padova

Palazzo della Salute, Via San Francesco 90

## Tuesday 10 February

14:20

### The present and future of GW facilities at all frequencies

**Session** | **Location:** Padova, Palazzo della Salute, Via San Francesco 90 | **Convener:** Maria Grazia Bernardini

14:20–14:45 **Multi-messenger opportunities with LISA**

**Speaker**

Alessandra De Rosa

14:45–15:05

**GW and multimessenger astronomy in the era of second generation GW detectors: recent results and future prospects**

**Speaker**

Barbara Patricelli

15:05–15:25 **The Einstein Telescope**

**Speaker**

Marica Branchesi

15:25–15:40

**The Lunar Gravitational Wave Antenna (LGWA): science goals, EM counterparts, and collaboration opportunities**

**Speaker**

Paola Severgnini

15:40–15:55 **Pulsar Timing Arrays -- basics and recent results**

**Speaker**

Caterina Tiburzi

15:55–16:05 **Discussion**

**Speaker**

Giancarlo Ghirlanda

16:05
