

**Session Program**

**10-12 Feb 2026**

**Multimessenger astronomy in the Einstein  
Telescope Era**

***Chasing HE neutrinos and their EM  
counterparts***

Padova  
Palazzo della Salute, Via San Francesco 90

## Wednesday 11 February

10:40

### Chasing HE neutrinos and their EM counterparts

**Session** | **Location:** Padova, Palazzo della Salute, Via San Francesco 90 | **Convener:** Maria Teresa Botticella

10:40–10:50

#### Stato e prospettive per ARCA-KM3NeT

**Speaker**

Pasquale Migliozzi

10:50–11:05

#### Characterize the neutrino diffuse observations through a multi-messenger study

**Speaker**

Antonio Marinelli

11:05–11:20

#### Astrophysical neutrino sources

**Speaker**

Giulia Illuminati

11:20–11:35

#### High-energy neutrinos from interacting SNe with new-generation detectors

**Speakers**

Irene Salmaso, Stefano Cosentino

11:35–11:50

#### Radio counterparts of high-energy neutrino sources

**Speaker**

Corrado Trigilio

11:50–12:05

#### KM3Net e IceCube: 2 eyes to scan neutrino-emitting AGNs

**Speaker**

Filippo D'Ammando

12:05–12:25

#### Discussion

**Speaker**

Massimo Della Valle

12:30
