Session Program

15–18 Dec 2026

Congresso Nazionale Oggetti Compatti XIV

Ultraluminous X-ray sources

Tuesday 15 December

16:30

Ultraluminous X-ray sources

Session

16:30–16:50

Everything you always wanted to know about (P)ULXs* (*but were afraid to ask)

Speaker
Matteo Imbrogno

16:50–17:00

The hidden heartbeat: hunting pulsating ULXs through super-orbital modulations

Speaker
Anna Battisti

17:00–17:10

Timing the Orbit of M82 X-2 with Weighted Photons

Speaker
Giulia Leoni

17:10–17:20

Unlocking the M82 ULXs through timing

Speaker
Dr Matteo Bachetti

17:20–17:30

Are all ULXs ULXs?

Speaker
Roberta Amato

17:30–17:40

Spectral variability and wind signatures in the ultraluminous X-ray source NGC 1313 X-1

Speaker
Luca Bilardello

17:40–17:50

A rare hard X-ray lags in the ultraluminous X-ray Source NGC 7456 ULX-1

Speaker
Fabio Pintore

17:50–18:00

Investigation of a luminous and variable source ULX 5 in the vicinity of Circinus galaxy using XMM-Newton & NuSTAR observation

Speaker
Neeraj Kumari

18:00–18:10

A MeerKAT detected ULX radio bubble in NGC 1313

Speaker
Chiara Salvaggio

18:10
