Session Program

15–18 Dec 2026

Congresso Nazionale Oggetti Compatti XIV

Supernova remnants and pulsar wind nebulae

Tuesday 15 December

18:20

Supernova remnants and pulsar wind nebulae: Supernova remnants and pulsar wind nebulae

Session

18:20–18:40 **Invited - Nicolò Bucciantini**

18:40–18:50 **Modelling the Dynamics of Middle-Aged Pulsar Wind Nebulae**

Speaker
Yuri Batini

18:50–19:00

The first detection of pulsed radio emission from a Central Compact Object

Speaker
Alessandro Ridolfi

19:00–19:10

X- and γ-ray emission from the region of the supernova remnant G69.7+1.0: discovery of a candidate neutron star

Speaker
Michela Rigoselli

19:10–19:20

Beyond integrated spectra: unveiling the local radio properties of supernova remnants

Speaker
Sara Loru

19:20
