

Session Program

9-12 Oct 2018

**Active Galactic Nuclei 13: Beauty and the
Beast**

***The non thermal world: multi-messenger and
jets***

Milan, Auditorium
Acquario Civico di Milano Viale Gadio 2

Tuesday 9 October

14:30

The non thermal world: multi-messenger and jets

Session | Location:

14:30–14:45 **Blazars as neutrinos factories**

Speaker

Chiara Righi

14:45–15:00 **Hunting for extreme blazars in the TeV band**

Speaker

Luca Foffano

15:00–15:15 **The Cherenkov Telescope Array view of some peculiar AGN classes**

Speaker

Marco Landoni

15:15–15:30 **Jetted Active Galactic Nuclei**

Speaker

Luigi Foschini

15:30–15:45

Radio and GeV-TeV gamma-ray emission connection in the different blazar sub-classes

Speaker

Rocco Lico

15:45–16:00 **Disc-jet coupling in AGN**

Speaker

Francesca Panessa

16:00
