

1° Convegno Nazionale della collaborazione Euclid Italia

Tuesday, 6 February 2018

Primary Probes: Galaxy Clustering Science - Moderatore: A. Zacchei (09:00 - 11:05)

time	[id] title	presenter
09:00	[26] Galaxy Clustering science (Introduction)	BRANCHINI, Enzo
09:05	[10] Overview of galaxy clustering activities: systematic errors task force report, e2e simulations and the SPV	GRANETT, Benjamin
09:35	[33] Euclid cosmological simulations (Flagship and extensions) and their validation against the real Universe	POZZETTI, Lucia
09:55	[27] How do we measure two and three-point correlation functions in Euclid?	MARULLI, Federico
10:15	[28] How do we measure power spectra and bi-spectra in Euclid?	KODA, Jun
10:35	[29] Overview of galaxy clustering validation activities and higher-order clustering science	SEFUSATTI, Emiliano
