

## Protoplanetary disks

Contribution ID: 15

Type: Talk

## The Extremely Large Telescope (I)

*Thursday, 28 June 2018 09:00 (30 minutes)*

I will present an overview of the current status of the Extremely Large Telescope (E-ELT) project, concentrating on recent developments. I will then discuss the ELT instruments and then briefly address the proto-planetary disk science topics, which these instruments will address.
