

Protoplanetary disks

Monday, 25 June 2018

Formation of protostellar disks and jets (chair S. Antonucci) (15:00 - 19:00)

time	[id] title	presenter
15:00	[35] Protostellar jets: the revolution with ALMA and NOEMA (I)	PODIO, Linda
15:30	[2] Jets, winds and accretion shocks around the protostellar system HH212 (I)	BIANCHI, Eleonora
16:00	[36] SKA (I)	UMANA, Grazia
16:30	Tea break	
17:00	[3] Protostars: Forges of cosmic rays? (I)	PADOVANI, Marco
17:30	[7] First disk-mediated accretion burst from a massive proto(star): how accretion turns into ejection	CARATTI O GARATTI, Alessio
17:50	[9] A far-infrared catalogue of dense cores and protostars in the Lupus complex	BENEDETTINI, Milena
18:10	[54] HD142527: A crime scene investigation	PRICE, Daniel
18:30	Discussion on early evolution (Claudio Codella moderator)
