

Congresso Nazionale di Astrochimica e Astrobiologia (proto-) planetaria

Monday, 21 October 2019

Solar System (16:45 - 18:30)

time	[id] title	presenter
16:45	[3] Asteroid composition: recent results by the JAXA Hayabusa2 and NASA OSIRIS-REx missions	Prof. BARUCCI, Antonella
17:25	[52] Composition of Solar System giant planets	ADRIANI, Alberto
18:05	[33] Spectral modelling and compositional properties of Saturn's icy moons and rings	Dr CIARNIELLO, Mauro

Tuesday, 22 October 2019

Solar System (09:30 - 10:45)

time	[id] title	presenter
09:30	[6] Aliphatic organics on comet 67P/Churyumov-Gerasimenko: from interstellar dust to pristine solar system	RAPONI, Andrea
09:55	[23] Pebbles	Dr FULLE, marco
10:20	[37] From protostars to protoplanetary disks: astrochemistry at work during the Class I phase	BIANCHI, Eleonora
