

Congresso Nazionale di Astrochimica e Astrobiologia (proto-) planetaria

Tuesday, 22 October 2019

Exoplanets characterization (15:25 - 18:30)

time	[id] title	presenter
15:25	[25] Exoplanet atmospheres at high spectral resolution	BROGI, Matteo
16:05	[43] Exoplanetary characterisation with ARIEL	MICELA, Giuseppina
16:45	[20] The compositions of small planets with HARPS-N@TNG	Dr BONOMO, Aldo Stefano
17:10	Coffee break	
17:30	Discussion	

Wednesday, 23 October 2019**Exoplanets characterization (09:30 - 12:30)**

time	[id] title	presenter
09:30	[40] The visible arm of the GAPS 2.0 atmospheric characterization programme	VALERIO, Nascimbeni
09:55	[18] The near-infrared arm of the GAPS 2.0 atmospheric characterization programme	GUILLUY, Gloria
10:20	[21] An ESPRESSO view of exoplanetary atmospheres	BORSA, Francesco
10:45	[19] Towards a comprehensive view of planet formation: The role of the host star's metallicity.	Mr MALDONADO , Jesus
11:10	[22] The chemical composition of young stars: implications for planet formation	D'ORAZI, Valentina
11:35	[28] Connecting Habitability and Exoplanets Observables	Dr MARIS, Michele
12:00	Concluding remarks
