

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Plenary 2

Online

Monday 6 September

13:45

Plenary 2

Session | **Location:** Online | **Convener:** Laurene Jouve

13:45-14:05

Simulations of chromospheric heating: progress and challenges

Speaker

Sanja Danilovic

14:05-14:25

Shocks and instabilities in the partially ionised plasma of the solar atmosphere

Speaker

Andrew Hillier

14:25-14:40

The formation and heating of chromospheric fibrils in a radiation-MHD simulation

Speaker

Malcolm Druett

14:40-14:55

Where is the base of the Transition Region? SDO, TRACE and ALMA observations

Speaker

Prof. Costas Alissandrakis

14:55-15:10

SO/PHI on Solar Orbiter, the first magnetograph to leave the Sun-Earth line: The instrument, its first data and its scientific promise

Speaker

Sami Solanki

15:10
