

16th European Solar Physics Meeting

Tuesday, 7 September 2021

Plenary 4 (15:40 - 17:00)

-Conveners: Andrew Hillier

time	[id] title	presenter
15:40	[116] Coronal spectroscopy of pre-flare and active regions	HARRA, Louise
16:00	[542] Observational and numerical characterization of a wave-like front propagating along a coronal fan	SIEYRA, Valeria
16:15	[258] Kink instability of jets in the solar atmosphere	ZAQARASHVILI, Teimuraz
16:30	[539] Direct observational indications of wavelike disturbances in MBP tracks	MALDONADO, Juan Pablo
16:45	[123] Whistler instability driven by the sunward electron deficit in the solar wind: High-cadence Solar Orbiter observations	BERCIC, Laura
