

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Plenary 5

Online

Thursday 9 September

14:00

Plenary 5

Session | **Location:** Online | **Convener:** Louise Harra

14:00–14:20 **The role of turbulence in solar flares**

Speaker

Natasha Jeffrey

14:20–14:40 **The characteristics of flare- and CME-productive active regions**

Speaker

Dr Ioannis Kontogiannis

14:40–14:55 **Multi-view magnetic synoptic maps with SO/PHI and SDO/HMI**

Speaker

Philipp Löschl

14:55–15:15 **Radio signatures of solar flares**

Speaker

Larisa Kashapova

15:15–15:30

X-ray and radio diagnostics of energetic electrons in the solar corona with STIX, Fermi, the Nancay Radioheliograph and the ORFEES spectrograph

Speaker

Dr Sophie Musset

15:30
