

## Session Program

6-10 Sept 2021

## 16th European Solar Physics Meeting

### *Poster Session 3.2*

Online

## Tuesday 7 September

09:00

### Poster Session 3.2

Session | Location: Online | Convener: D. Shaun Bloomfield

09:00–09:13

#### A Mechanism Driving Recurrent Eruptive Activity on the Sun

**Speaker**

Dr Georgios Chintzoglou

09:13–09:26

#### Disambiguation of vector magnetograms by stereoscopic observations from SDO/HMI and Solar Orbiter/PHI

**Speaker**

Gherardo Valori

09:26–09:39

#### Analysis of Pseudo-Lyapunov Exponents of Solar Convection Using State-of-the-Art Observations

**Speaker**

Giorgio Viavattene

09:39–09:52

#### Magnetically coupled atmosphere, the MHD waves transfer, and possible contribution to the outer atmosphere heating

**Speaker**

Dr Hana Meszarosova

10:05–10:18

#### Observations and simulations of small-scale dynamic events with ALMA

**Speaker**

Henrik Eklund

10:18–10:31

#### NuSTAR observations of a quiet Sun minifilament eruption

**Speaker**

Iain Hannah

10:31
