

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Poster Session 9.3

Online

Thursday 9 September

09:00

Poster Session 9.3

Session | Location: Online | Convener: Istvan Ballai

09:00–09:13

Variability of Calcium Abundance during Flares as Determined from Analysis of SMM BCS Spectra

Speaker

Barbara Sylwester

09:13–09:26

Flux tube dependant propagation of Alfvén Waves in the Solar Corona

Speaker

Chaitanya Prasad Sishtla

09:26–09:39

A new method for detecting solar gravity waves

Speaker

Dr Daniele Calchetti

09:39–09:52

Numerical simulation of particle acceleration in CME shocks

Speaker

Ms Shanwlee Sow Mondal

09:52–10:05

Magnetic Perturbations in a Sunpot Chromosphere Linked to Plasma Fractionation in the Corona

Speaker

Mr Andy S. H. To

10:31
