

16th European Solar Physics Meeting

Tuesday, 7 September 2021

Poster Session 3.5 (09:00 - 10:31)

-Conveners: Jasmina Magdalenic

time	[id] title	presenter
09:00	[513] The Real Winding Number of Coronal Flux Ropes	Dr PRICE, Daniel
09:13	[427] The effect of a solar flare on chromospheric oscillations	Mr MILLAR, David
09:26	[445] Opening a new window of spectro-temporal polarimetric imaging study of low frequency radio Sun using SKA precursor	KANSABANIK, Devoiyoti
09:39	[527] Initial STIX Coarse Flare Locations	Dr DICKSON, Ewan
09:52	[260] Polarization signatures during the X1.6 flare observed in NOAA 12192	FERRENTE, Fabiana
10:05	[274] Radio and EUV analysis of a shock wave reflected by an equatorial coronal hole	FRASSATI, Federica
