

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Poster Session 10.6

Online

Thursday 9 September

11:00

Poster Session 10.6

Session | Location: Online | Convener: Istvan Ballai

11:00-11:13

Reconstructing past solar irradiance variations with Ca II K observations

Speaker

Theodosios Chatzistergos

11:13-11:26

Small-scale filament eruption identification using ResNet50

Speaker

Mr Thomas Chen

11:26-11:39

Magnetized CMEs and solution adaptive mesh refinement in EUHFORIA

Speaker

Ms Tinatin Baratashvili

11:39-11:52

On flux ropes born in helmet streamers

Speaker

Victor Réville

11:52-12:05

Electron event of 11th July 2020: 3d modeling

Speaker

Yulia Kartavykh

12:31
