

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Poster Session 8.6

Online

Wednesday 8 September

16:30

Poster Session 8.6

Session | Location: Online | Convener: Manolis Georgoulis

16:30-16:43

Solar wind speed and rotational shear at coronal hole boundaries and streamer stalks, impacts on magnetic field inversions

Speaker

Dr Rui Pinto

16:43-16:56

Insights on 3D kinematics of Coronal Mass Ejections in the inner corona.

Speaker

Mr SATABDWA MAJUMDAR

16:56-17:09

Impacts of ionospheric ions in solar wind - magnetosphere coupling

Speaker

S. Toledo-Redondo

17:09-17:22

Turbulence properties of magnetic clouds and their sheath regions: Parker Solar Probe and Wind comparison

Speaker

Simon Good

17:22-17:35

How Magnetic Erosion affects the Kinematics of Coronal Mass Ejections

Speaker

Mr Sotiris Stamkos

17:35-17:48

Constraining the nature of the slow solar wind with PSP/WISPR

Speaker

SPIROS PATSOURAKOS

18:01
