

Session Program

6-10 Sept 2021

16th European Solar Physics Meeting

Poster Session 10.3

Online

Thursday 9 September

11:00

Poster Session 10.3

Session | Location: Online | Convener: Georgia Tsiropoula

11:00-11:13 **Wave propagation in a sunspot atmosphere at high resolution**

Speaker

Diego Prado Barroso

11:13-11:26

Time signatures of quasi-periodic fast-propagating waves in the solar corona

Speaker

Dr Dmitrii Kolotkov

11:26-11:39 **KAPPA package - the latest update**

Speaker

Elena Dzifčáková

11:39-11:52

How does numerical diffusion affect high resolution two-fluid simulations of magnetized turbulence?

Speaker

Elena Khomenko

11:52-12:05

Simulations of the Biermann battery mechanism in two-fluid partially ionised plasmas

Speaker

David Martínez Gómez

12:30
